WARRANT FOR SPECIAL STATE ELECTION

June 13, 1933

Commonwealth of Massachusetts

Norfolk, ss.

*To either of the Constables of the Town of Needham, in said County,
Greeting:*

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the Inhabitants of the Town of Needham qualified to vote in elections and in Town affairs to meet in the Town Hall in said Town on **Tuesday the thirteenth day of June, 1933**, at 12.00 o'clock noon, then and there to give in their votes for the election of Delegates to a Constitutional Convention called to Ratify or Reject the Following Amendment to the Constitution of the United States, proposed by Joint Resolution of Congress.

Text of the Proposed Amendment

"Section 1. The eighteenth article of amendment to the Constitution of the United States is hereby repealed.

"Section 2. The transportation or importation into any State, Territory, or possession of the United States for delivery or use therein of intoxicating liquors, in violation of the laws thereof, is hereby prohibited.

"Section 3. This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by conventions in the several States, as provided in the Constitution, within seven years from the date of the submission hereof to the States by the Congress."

To vote upon the following question:

"Shall licenses be granted in this town for the sale therein of wines and malt beverages?"

And you are directed to serve this warrant by posting attested copies thereof in not less than twenty public places in said Town at least seven days before the time of said meeting.

Hereof fail not and make due return of this warrant with your doings thereon unto ourselves on or before said day and hour.

Given under our hands at Needham aforesaid this first day of June A. D., 1933.

P. D. HOWE,
W. P. McEVOY,
C. G. McINTOSH,
Board of Selectmen.

Needham, June 5, 1933.

Norfolk, ss.

By virtue of this warrant, I have this day notified and warned the inhabitants of the Town of Needham to meet as within directed, by posting

true and attested copies of this warrant in not less than twenty public places in said Town more than seven days before the time of holding said meeting.

RUSSELL C. WILLIAMS,
Constable of Needham.

A true copy of warrant and officer's return.

NOTICE

The attention of parents is called to the law relating to the registering of Births. The present requirements are as follows:

Chap. 29, Sec. 6, of the Revised Laws. Parents within forty days after the birth of a child . . . shall cause notice thereof to be given to the clerk of the town or city in which such child is born.

Sec. 8. A parent . . . who neglects so to do for ten days after the time limited therefor, . . . shall forfeit not more than five dollars for each offense.

Attention of Physicians and Midwives is Called to
Chapter 280, Sec. 1, Acts of 1912

Section 1. Physicians and midwives shall, within forty-eight hours after the birth of every child in cases of which they were in charge, mail or deliver to the clerk or registrar of the city or town in which the birth occurred, a notice stating the date and place of the birth, giving the street number, if any, the number of the ward in a city and the family name. Failure to mail or deliver the said notice shall be punished by a fine not exceeding twenty-five dollars for each offense.

In accordance with the provisions of the law, the Town Clerk is prepared to furnish to parents, physicians and midwives applying therefor, blanks for return of births as required by law.

NOTICE

Persons who intend to be joined in marriage in this Commonwealth shall, not less than five days before their marriage, cause notice of their intention to be entered in the office of the Clerk or Registrar of the city or town in which they respectively dwell, or if they do not dwell within the Commonwealth, in the office of the clerk or registrar of the city or town in which they propose to have the marriage solemnized.

Chapter 151, Section 29, Revised Laws

If a marriage is solemnized in another state between parties living in this Commonwealth, who return to dwell here, they shall within seven days after their return, file with the clerk or registrar of the city or town in which either of them lived at the time of their marriage, a certificate or declaration of their marriage, including the facts relative to marriage, which are required by law, and for neglect thereof shall forfeit ten dollars.

REPORT OF BOARD OF SELECTMEN

To the Voters of the Town of Needham:

The following is submitted as the two hundred twenty-second annual report of the Board of Selectmen:

Organization

PARKMAN D. HOWE, *Chairman*
WILLIAM P. McEVOY, *Vice-Chairman*
CARLETON G. McINTOSH, *Secretary*

DOROTHY B. ELDRIDGE, *Clerk to the Board*
FRANCIS J. STANWOOD, *Agent Insurance,*
Distribution of State Aid, Military Aid and Soldiers' Relief

FREDERICK S. KINGSBURY, *Agent*
Care of Soldiers' and Sailors' Graves

Civil Works Administration

After many hours of detailed preparation in conjunction with Local C. W. A. Administrator, Evan C. Thorpe, and Engineer Lester C. Hollis, various local Town projects were submitted on November 20, 1933, to C. W. A. Chairman Joseph W. Bartlett, at the State House. By December 31st, seventeen Town C. W. A. projects had been approved employing two hundred forty-five persons. The following is a tabulation showing the description of project, by whom supervised, number of persons employed and the amount appropriated.

Civil Works Projects

Project No.	Supervised By	No. of Persons	Amount
145-Sewer	Hollis	76	\$14,776 00

Grand Total		245	\$41,269 50

These projects have aided materially in reducing our Welfare and Soldiers' Relief Expenditures.

Sand and Gravel Pits

Throughout the year the problem of regulating Sand and Gravel pits has been given careful study, the situation becoming more serious because of the large amount of construction work being done by the State on highways. In November the following were appointed a committee to investigate and study and submit rules and regulations, for approval by the Selectmen for the control of sand and gravel banks:

ERNEST B. ALLEN, *Chairman*,
LESTER C. HOLLIS,
CARLETON G. McINTOSH,
CHARLES W. WOODBURY,
GEORGE A. LORD.

We feel that in this way future Boards of Selectmen will be able to view this serious problem at a glance.

Malt Beverages, Wines, and Liquors

On April 7, 1933, the Legislature voted to approve the sale of malt beverages and wines of not more than 3.2%

alcoholic content in Massachusetts and on April 11, the Selectmen voted to grant licenses permitting the sale of such beverages, not to be drunk on the premises. However, on June 13, 1933, the Town voted on the question and the results showed the Town overwhelmingly in favor of the sale of such beverages. In view of this vote the Board voted to issue licenses for the sale of malt beverages and wines of not more than 3.2% alcoholic content to be drunk on the premises.

On the Repeal of the 18th Amendment the Selectmen voted that no licenses be granted for the sale of alcohol and alcoholic beverages having a greater alcoholic content than 3.2% in the Town.

Districting

As required by the provisions of Chapter 279 of the Acts of 1932 entitled "An Act establishing in the Town of Needham representative Town government by limited Town meetings" the Town was divided into five districts as shown on a map identified by the Selectmen's signatures bearing date of October 3, 1933. The map together with a list of the names and residence of the registered voters in each district was sent to the Registrars of Voters, the Assessors and the Town Clerk. The description of the five districts as shown by said map are as follows:

District 1

Beginning at the Great Plain Avenue railroad station, the district includes the area bounded by the railroad to West Street; the center of West Street, of High Street, of Greendale Avenue, of Kendrick Street to Cheney Street; of Cheney Street to Greendale Avenue, to Washington Avenue, of Washington Avenue to Edgewood Street; of Edgewood Street to Melrose Avenue; of Melrose Avenue to Great Plain Avenue to the railroad. (1,063 voters.)

District 2

Beginning at the corner of Melrose and Great Plain Avenues, the area bounded by the center of Great Plain Avenue to Webster Street, the center of Webster Street to Harris Avenue, of Harris Avenue to Bradford Street, of Bradford Street to Dedham Avenue, of Dedham Avenue to the Charles River; the Charles River to Kendrick Street, the center of Kendrick Street to Cheney Street, of Cheney Street to Washington Avenue, of Washington Avenue to Edgewood Street, of Edgewood Street to Melrose Avenue, to Great Plain Avenue. (1,050 voters.)

District 3

Beginning at the corner of Webster Street and Great Plain Avenue the area bounded by the centre of Great Plain

Avenue to the railroad, the railroad to High Rock Street to Marked Tree Road, of Marked Tree Road, to Central Avenue, to the river; the river to Dedham Avenue, the center of Dedham Avenue to Bradford Street, of Bradford Street to Harris Avenue of Harris Avenue to Webster Street, to Great Plain Avenue. (1,053 voters.)

District 4

Beginning at Great Plain Avenue and the railroad, the area bounded by the railroad to West Street, the center of West Street to Central Avenue of Central Avenue to Brookside Road, to the Wellesley line; the Wellesley line to the Dover line at the Charles River Street bridge; the river to the Dover line at the Central Avenue bridge, the center of Central Avenue to Marked Tree Road, of Marked Tree Road to High Rock Street, of High Rock Street to the railroad; the railroad to Great Plain Avenue. (1,077 voters.)

District 5

Beginning at West Street and the railroad, the area bounded by the center of West Street to Central Avenue, of Central Avenue to Brookside Road, of Brookside Road to the Wellesley line; the Wellesley line across Reservoir Street to the river; the river to Kendrick Street bridge, the center of Kendrick Street to Greendale Avenue, of Greendale Avenue to High Street, of High Street to West Street, of West Street to the railroad. (1,054 voters.)

A copy of this map together with a description of the districts so established and a list of the names and residences of the registered voters was posted on the bulletin board at the Town Hall and in a public place in each district.

This districting entailed a great deal of time and study and a vote of appreciation is here expressed to Town Engineer Lester C. Hollis and his men for the fine work accomplished.

Town Hall and Grounds

In view of reduced appropriation for this department little has been done other than the necessary maintenance work to the Town Hall building, with the exception of turning the Highway Department tool storage room, in the basement, into an office for use by the Welfare Department and laying a new oak floor in the Inspectors' office in the basement.

Painting of the lower corridor, three offices and the ladies room, installing new plumbing in the ladies' room, installing a new window in the janitor's room in the basement, caulking windows, in the Town Hall building and recementing the front steps, are repairs approved under C. W. A., materials to be furnished by the Town. The work to be accomplished in 1934.

Billboards

The erection of billboards in the Town has given the Board much concern and in October a committee consisting of James M. McCracken, Gilbert W. Cox and Ernest B. Allen was appointed to go into the matter with the Department of Public Works and submit their report to the Selectmen.

Highways

For detailed report of Highways, Drains and Sidewalks see Report of Superintendent of Highways.

In May the work of the Park Department was taken over by the Highway Department because of insufficient funds appropriated for this work. The parks have been ably cared for under the direction of Superintendent Overton.

Fire Insurance

After much study of the Fire Insurance situation of Town properties in general and the condition of unbalanced yearly premiums, the Board determined upon a procedure as follows:

1. To write all insurance in one Schedule, eliminating the former Schedule which covered certain properties, and Specific policies covering others.

2. It was decided to fully insure all properties, both buildings and contents which resulted in a general increase of insurance carried, due largely to the completion of a complete inventory of contents.

3. In the matter of assigning premiums to agent-applicants, it was decided that such applicants should have a five-year residence in the Town of Needham.

4. The foregoing plan anticipates equal yearly premiums, it having been decided to write all insurance on a three-year basis.

5. The schedule carries a yearly rate of 37c per \$100 per year, whereas the former schedule called for 46c, a reduction of 9c per \$100 of insurance carried, which is largely due to the low-rated risks formerly carried on specific policies, and new values increases assignment to many properties.

6. The responsibility of fire insurance matters has been placed with the brokerage house of O'Brien, Russell & Co., 108 Water Street, Boston, acting as Central Agent.

Appropriations for years 1933, 1934, and 1935, will be unbalanced, but thereafter, excepting for such adjustments as may be necessary, due to insuring new properties, then erected, or destruction, and/or sale of properties, all insurance premium expirations will be of the same amount.

The Selectmen wish to express their appreciation to the various boards, committees and department heads for their co-operation throughout the year.

REPORT OF TOWN COUNSEL

January 5, 1934.

Board of Selectmen, Town Hall, Needham, Mass.

Gentlemen:— I herewith submit my report as Town Counsel for the year 1933.

The three actions brought against the Town respectively by Ellen Guion, Louise Bischoff and Harriette Briggs for damages arising out of an alleged defect in Webster Street, which actions are referred to in my last report, were tried before an Auditor appointed by the Court on motions of the plaintiffs. The Auditor found for the Town in each case. The plaintiffs have a right to a jury trial and have claimed it. Aside from their preparation the trial of these cases before the Auditor took five days.

The following cases are pending against the Town on which no action has been taken this year:

1. An action brought in February, 1932, by Alton Adams against the Town for damages arising out of an alleged defect in Forest Street.

2. A petition by Frederick S. DeLue for damages alleged to have been caused by the reconstruction of Otis, Parkinson, and Powers Streets. This petition was brought in April, 1930.

3. A petition by Bennett S. Ferguson for damages alleged to have been caused by the construction of a drain on Webster Street. This petition was brought in January, 1931.

4. Actions by Gladys W. and Walter C. Huening against the Town and former Town Officers alleging damages caused by the cutting down of trees at the intersection of Webster Street and Great Plain Avenue. Demurrers were filed in all cases on behalf of the Town and former Town Officers who were defendants.

5. Petitions by Veronica Smith for the assessment of damages on account of the reconstruction of Great Plain Avenue in 1931.

The appeal to the Board of Tax Appeals by the Inman Trust Company from an order made by the Board of Assessors denying an application for an abatement of taxes on property at 556-562 Highland Avenue, Needham Heights was withdrawn by the Appellant without an abatement.

An appeal was also taken to the Board of Tax Appeals by Thomas Kashalena from an order made by the Board of Assessors denying abatement of a tax on property at 13 Highland Terrace. This case was settled and a small abatement was granted.

The following appeals are pending before the Board of Tax Appeals:

1. An appeal by John W. Elliott Heirs and Devisees relative to property at Greendale Avenue, Charles River and South Street.

2. An appeal by H. Harris Eaton relative to property at Great Plain Avenue, Harris Avenue and Eaton Road.

3. Appeals by Elizabeth Purdy relative to property on Grove Street.

I have brought actions against the Towns of Dover and Belmont to recover money advanced for the relief of a soldier now residing in Needham but legally settled in either Dover or Belmont. As there is a question whether Dover or Belmont is the Town of legal settlement actions were brought against both.

I have been called upon and have furnished opinions on matters of law to the various Departments and Boards of the Town, many of which were in writing, and have acted in all matters brought to my attention where legal advice or action was necessary on behalf of the Town. I have attended nearly all the regular meetings of the Board of Selectmen.

Respectfully submitted,

GILBERT W. COX,

Town Counsel.

REPORT OF SUPERINTENDENT OF STREETS

To the Honorable Board of Selectmen:

Gentlemen: — I herewith present the report of the Highway Department for the year 1933.

The appropriations for streets were sharply reduced this year and as there were no streets to be built under the Betterment Act the activities of this Department were considerably curtailed. Considerable work, however, was done and the streets were kept in good condition.

During the summer in order to make work for men it was decided to ask the State Department of Public Works for assistance in building a part of Dedham Avenue. They agreed provided the Town would sign a contract that the work be done on a unit price basis. This was accepted and the road, culverts, and drains were built, giving the Town a much needed drainage system on that street at a cost slightly less than half the total expenditure.

This Department was fortunate in contracting for pipe and other materials and also had a balance to its credit when the C. W. A. gave it three projects so it was enabled to furnish the materials necessary for the jobs. The three projects awarded the Highway Department are the widening of Rosemary Street, drainage systems in various parts of the Town and the building of a retaining wall along Rosemary Street at Rosemary Lake. All of these projects will be of permanent improvement to the Town.

The following streets were built in 1933:

West Street, started in 1932, was finished, the street widened to a width of thirty feet from Dale Street to Central Avenue and the concrete culvert at brook extended twelve feet.

Kendrick Street was widened from Greendale Avenue to Cheney Street in order to make a better approach to the new highway.

Cartwright Road was gravelled and tarred from the Wellesley line to the end of the street.

A part of Great Plain Avenue from Marshall Street to Gage Street was rebuilt.

Chestnut Street from School Street to Oak Street was excavated and resurfaced.

A detailed financial report of this Department will be found in the Auditor's Report.

For several years I have contended that gravel sidewalks were a waste of money. During wet weather or when the frost is coming out in the spring, gravel sidewalks provide an unpleasant and unsatisfactory surface for pedestrians. This year with a sufficient appropriation about three and one-half miles of bituminous top sidewalks were built as it was felt that this type of construction would provide employment and give

more satisfaction to a greater number of our citizens. This work was done in all sections of the town as the following table will show:

Bituminous Top Sidewalks

Webster Street.....	3,500 linear feet
Dedham Avenue.....	700 linear feet
Great Plain Avenue.....	3,250 linear feet
Marked Tree Road.....	2,200 linear feet
Gage Street.....	200 linear feet
Central Avenue, N. U. F.....	900 linear feet
Marshall Street.....	400 linear feet

West Street, N. H.....	400 linear feet
Greendale Avenue, N. H.....	200 linear feet
Nehoiden Street.....	100 linear feet

Making a total of..... 17,300 linear feet

The appropriation asked for sidewalks should be granted so that this type of sidewalk which has given so much satisfaction can be continued.

Recommendations

At a meeting with the abutters and the Selectmen it was decided to complete Mount Vernon Avenue under the betterment act. The street was excavated and a gravel base put in ready for stone. The weather prevented the completion of this job which should be built in the spring.

Dedham Avenue should be rebuilt from where the construction ended this year to Webster Street and from Lincoln Street to Needham Square.

Chestnut Street should be rebuilt from Oak Street to Chestnut Place.

Highland Avenue should have some resurfacing using bituminous material and pea stone dragged and rolled in, which will preserve that street for several years at small expense.

I wish to express my sincere appreciation for the courtesy and co-operation extended to me by your Honorable Board.

Respectfully submitted,

JOHN OVERTON,
Superintendent of Streets.

REPORT OF POLICE DEPARTMENT

December 31, 1933.

To the Honorable Board of Selectmen:

Gentlemen: — I herewith submit the annual report of the Police Department for the year ending December 31, 1933.

The Police Department has, in my opinion, operated during the past year with too small a personnel and while I realize the need of municipal economy I believe that in the interests of the public the force should be increased in the very near future.

Vacancies which have occurred in the past few years have not been filled. On August 25, Patrolman Harold R. Sullivan was granted a six months' leave of absence without pay. Reserve Officer Tocci was employed 84½ days between August 25 and December 31, inclusive. At the request of the Board of Selectmen for an officer to do part time duty at certain school hours at Bond's Corner, Reserve Officer Rooney was assigned to such work. Other duty to which it was necessary to assign him totalled 68½ days between August 25, and December 31, inclusive.

Because of the limited force of this department it was necessary on September 18, when an industrial dispute threatened to result in violence, to summon help from the State Police. One man came 40 miles from Topsfield, and another from Framingham.

Several times upon receipt of emergency calls during the past year it has been necessary to leave the station unattended until a man could be called in from other duty. In my opinion the force should be large enough so that two officers may be in the station at all times. This would enable one man to act as driver while the other remained in the station to receive other calls, and would insure quick and efficient response to ambulance and all other emergency summons.

The teletype, I believe, should be re-installed at the earliest possible date. Radio facilities should be put in, preferably complete with broadcasting facilities, but at least to the extent of receiving equipment at headquarters, and on at least two cars.

As indicated in the budget submitted, I believe that the scope of this department's activities should, in certain phases, be increased, and that in none can wisely be reduced beyond that of 1932, when the Town was smaller and crime factor less pronounced.

The following is record of the court cases handled during the year.

REPORT OF SUPERINTENDENT OF FIRE ALARM

Needham, Mass., January 15, 1934.

To the Honorable Board of Selectmen:

Gentlemen: — I herewith submit my Annual Report as Superintendent of Fire Alarm of the Town of Needham, for the year ending December 31, 1933.

The fire alarm system has been kept in good operating condition during the year.

A new aerial loom cable has been extended from Great Plain Avenue on Pickering Street, on May Street, and on Highland Avenue to West Street, the wires being used for fire alarm purposes and for a direct town-owned telephone line with telephones for emergency service to the fire station at Needham Heights, also for the Police signal and flashlight recall system, the expense of the cable was borne jointly by the Fire and Police Departments, the construction being done by the Fire Alarm Department.

Wire locations have been changed and new lines run on South Street between Great Plain Avenue and Dedham Avenue. Several pole locations have been changed during the year. Tree trimming has been done to keep away grounds on circuits and more tree trimming and tightening of line wires will have to be done during the coming year. Some of the old wires erected on Central Avenue many years ago must be replaced as soon as possible, these lines are between Hunnewell and Booth Streets, between Cedar and Webster Street, between Dwight School and Great Plain Avenue and between Charles River and Fisher Street. The lines on School Street between Lincoln Street and Dedham Avenue, also on Charles River Street between Central Avenue and Pine Street should be replaced with new weather-proof insulated wire.

One new fire alarm box has been installed during the year, this is a private box, owned by Walker Gordon Laboratory Company.

There are still a number of antiquated fire alarm boxes in the system which should be replaced in order to insure accuracy of sending in fire alarm signals, also several new boxes should be installed at new locations.

The new rooms erected at the Fire Headquarters for the housing of added circuit facilities and batteries to give better protection, should be used for the purpose they were designed, and I recommend that steps be taken as early as possible to carry out this plan, this would give added space in the town hall building for regular town matters and would improve the fire alarm system throughout the entire town.

The work of maintenance and repairs has been done by members of the Fire Department under the direction of the Chief and Assistant Superintendent of Fire Alarm, Leo C. Brady. Twelve hundred hours' time has been spent in the up-keep of this Department.

To all Town Officers, members of the Department, the Edison Electric Company, The Gamewell Company and the New England Tel. & Tel. Company who have assisted and co-operated with me during the year, I extend my sincere thanks.

Respectfully submitted,

T. ROBERT QUINLAN,
Superintendent of Fire Alarm.

REPORT OF THE CHIEF OF THE FIRE DEPARTMENT

Needham, Mass., December 31, 1933.

To the Honorable Board of Selectmen:

Gentlemen: — I respectfully present the report of the Fire Department for the year ending December 31, 1933, the forty-eighth of the Department.

The Manual Force

The manual force of the Fire Department consists of forty men and three substitutes, as follows: the permanent force, chief, three lieutenants and eleven men; the call force, one deputy chief, one captain and twenty-one men, and three substitutes.

Apparatus

The Department is equipped with six pieces of motor apparatus, and one horse-drawn piece as follows: one Chief's car, a Buick coupe, one Maxim 1,000 gallon pumping engine, one American LaFrance ladder truck, one White Combination hose and chemical and one Buick forest truck at Station 1; one White 600 gallon pumping engine, hose and chemical at Station 2; and one horse-drawn combination hose and chemical wagon stationed at Charles River. The apparatus is all in good mechanical condition.

Hose

An inventory of hose at the present time shows the following: 1,500 feet of 1½ inch hose, 6,650 feet of 2½ inch hose, 200 feet of 3 inch hose, and 650 feet of chemical hose.

During the month of October all hose was tested at a 200-pound pressure.

Fire Stations

The Department is beginning its third year of occupancy of its new headquarters, and can report two very profitable years enjoyed under this roof. Adequate space, and splendid equipment have combined to furnish a background for the development of a fine system of efficient operation as well as discipline of the manual force. The charming homey atmosphere which is provided for these men who must be absent from their own fireside so much, is greatly appreciated by them, and their sole interest, apart from being a good fireman, is to keep everything spic and span, reflective of their pride in their new headquarters.

Perhaps the most outstanding accomplishment of the Department, during the past year, was the building of a smoke house, which is considered by many authorities to be the best in the state, the work of construction being done entirely by the firemen.

The object of a smoke house is to provide the firemen an opportunity to get familiar with the use of the gas mask, which must sometimes be used, and which if used ignorantly, may occasion more harm than good.

This smoke house is built of 8-inch reinforced cement. The floor area measures 12 feet by 12 feet, and it is 8 feet high. It is built five feet below the surface and three feet above, and is in reality meant to represent the basement of a building, where an extremely smoky condition might exist. A small ell at the rear, the front of which is bricked, serves as a fireplace. An opening in the front of this allows for the building of the fire of materials which create a dense smoke, such as discarded tires, tarred paper, etc. The smoke rises to the top of this firebox, and passes through an opening provided for it, into the smoke house. When the smoke is very dense, an oxygen test is made through an opening in the roof. Then the men, usually three, enter, wearing their gas masks, and remain in there for five minutes.

This drill, we feel, has added greatly to the efficiency of the Department, and it is our opinion that the benefit derived from the smoke house will more than offset the cost many times.

Station 2 has been kept in repair, and though old and inadequate, continues to house the Heights branch of the Department. Depressing business conditions for the last few years

have restrained us from making a recommendation for a new building here. But the necessity of it before many years is obvious.

Fire Prevention

During these trying years through which we have passed and are passing, economy must be the watchword on every hand. Our town officials are confronted with the serious problem of cutting expenses in every department. We appreciate the enormity of their task as well as the difficulties encountered. But we wonder just how they take inventory of the Fire Department when considering what economies can be made here. The question arises, "Just what is true economy in this Department?" Because statistics show fewer serious conflagrations and less property damage, is it time to reduce the size of the fire-fighting force and do away with some of the apparatus, or equip with less efficient apparatus? From the ordinary citizen's point of view the answer might be in the affirmative. But to those familiar with the subject, this would seem to mean treading on dangerous ground. Is it not a fact that the very presence of a well-manned, well-trained force, and efficient and sufficient apparatus is responsible for the fewer serious fires, smaller property damage, and what is most important to any town, the subsequent lower insurance rate?

Contrary to general opinion, a good fireman is not made in a day. It takes much drilling and experience, and, so necessarily, much time is required and a great deal of money expended in assembling an efficient corps of men to do the job. On the other hand, it takes but a day, but a single act, to destroy that efficiency, by a well-meant, supposed economy measure. And once the demoralizing effects are experienced, it is a long, uphill and expensive struggle to restore the morale of the Department.

In view of all this, while it is our desire to continue to co-operate with the town officials to the greatest extent of our ability in reducing costs where possible, it is our opinion that the suggestion of any serious reduction in operating costs, should be considered well, lest we destroy that structure which has been built upon the desire to serve the Town in the most satisfactory manner, and to lend every effort toward Fire Prevention.

Business places have been inspected monthly during 1933, as has been the rule for a number of years.

During Fire Prevention Week in October the regular school inspections were made. The schools were visited, and test drills given the pupils, and the time consumed in vacating each building was recorded. Rigid inspections of the business districts were made during this week also.

As is our usual custom, the Department has co-operated with the Boy and Girl Scouts, giving the former instructions in firemanship in response to their requests, teaching the latter the proper method of sounding an alarm, when brought by their Scout leaders, and stressing the need of general Prevention to both groups.

Drills

The firemen were regularly instructed in the use of the various appliances and equipment, including the inhalator.

Regular drills have been conducted at headquarters, where there is a hydrant in the yard for this specific purpose.

Since the completion of the smoke house, periodic drills have also been in progress here.

Recommendations

Because of the economy measures in progress, we are withholding from submitting any recommendations for the coming year. But we would like to mention that with the growing number, of oil burner installations, it is obvious that a foam generator for combating oil fires will be an absolute necessity in the very near future.

Summary for the year 1933

The total number of alarms for the year was 203, of which 149 were bell alarms; 54 were still alarms. There were 6 out-of-town calls as follows: Dedham, 1; Wellesley, 2; Dover, 2; and Newton, 1. Five of the bell alarms were false, 5 were needless and 6 were No School signals. Fourteen calls were made on the Department in emergencies other than fire as follows: overcome by carbon monoxide gas, 1; drowning, 1; tenants locked out, 2; child locked in bathroom, 1; pump water out of cellar, 1; fumes from electric refrigerator, 1; defective ammonia plant, 1; rescue cat from trees, 6.

The amount of hose used during the year was 6,350 feet, the number of gallons of chemical used was 565, and there were 1,015 feet of ladders raised in the extinguishing of fires.

There was a total of 167 fires, and these, exclusive of 21 chimney fires are classified as follows:

Frame Buildings.	45
Automobiles.	15
Dumps.	1
Grass, Bush and Woods.	72
Miscellaneous including rubbish.	13

Probable cause of fires, exclusive of one undetermined, are classified as follows:

I wish here to make acknowledgment of my grateful appreciation of the co-operation received from the Selectmen, and the various Town departments during the past year, and to thank the men of the Fire Department for their continued loyalty to duty.

Respectfully submitted,

T. ROBERT QUINLAN,
Chief of the Fire Department.

REPORT OF PETROLEUM INSPECTOR

Needham, Mass., December 31, 1933.

To the Honorable Board of Selectmen:

Gentlemen: — I herewith respectfully submit the report of Petroleum Inspector for the year ending December 31, 1933.

Permits issued for storage of fuel oil in connection with Domestic oil burners	123
Permits issued for storage of range oil in connection with Range burners	625
Total	748
Gallons of fuel oil stored in connection with the above oil burners	77,269

Respectfully submitted,

T. ROBERT QUINLAN,

Petroleum Inspector.

REPORT OF FOREST WARDEN

Needham, Mass., December 31, 1933.

To the Honorable Board of Selectmen:

Gentlemen: — I herewith submit my annual report as Forest Warden.

During the year there were 900 permits issued for the burning of grass, brush, and rubbish. There are still some cases, where people neglect to get permits and in which case, when the Fire Department is called are requested to reimburse the Town for the expense of extinguishing the fire.

Residents requiring to build fires in the open must obtain permits at all times during the year except at such times when snow covers the ground. These permits may be obtained at Fire Headquarters, Needham, or at Station No. 2, Needham Heights.

The notices relative to securing a permit from the Forest Warden before setting a fire in the open were posted in numerous conspicuous places throughout the Town, and particularly in the outlying sections.

The following are the extracts from the Massachusetts Forestry Fire Laws:

Setting of Fires in the Open Air

Chapter 401, Acts of 1930. No person shall set, maintain or increase a fire in the open air at any time unless the ground is substantially covered with snow, except by written permis-

sion, covering a period not exceeding ten days from the date thereof, granted by the forest warden or chief of the fire department in cities and towns, or, in cities having such an official, the fire commissioner; provided, that debris from fields, gardens and orchards, and leaves and rubbish from yards, may be burned on ploughed fields by the owners thereof, their agents or lessees, if such fire is at least two hundred feet distant from any sprout or forest land and at least fifty feet distant from any building and is properly attended until extinguished; and provided, further, that persons above the age of eighteen may set or maintain a fire for a reasonable purpose upon sandy land, or upon salt marshes or sandy or rocky beaches bordering on tide water, if the fire is enclosed within rocks, metal or other non-inflammable material. The forester may make rules and regulations relating to the granting and revocation of such permits binding throughout the Commonwealth. Such rules and regulations shall take effect subject to Section thirty-seven of Chapter thirty, when approved by the Governor and Council. The forest wardens in towns and officials performing the duties of forest wardens in cities shall cause public notice to be given of the provisions of this Section and shall enforce the same. Whoever violates any provision of this section shall be punished by a fine of not more than one hundred dollars or by imprisonment for not more than one month, or both.

Respectfully submitted,

T. ROBERT QUINLAN,

Forest Warden.

REPORT OF COMMITTEE IN CHARGE OF TOWN NURSERY

To the Honorable Board of Selectmen:

Gentlemen: — The committee in charge of the Town Nursery herewith submits its report for the year ending December 31, 1933.

It was not necessary to use any of the appropriation for the care of the nursery this year, as the men for this work were furnished by the Department of Public Welfare.

About sixty trees were taken out for road side planting during the fall. A general rearrangement of the trees in the nursery has been started with a view to giving them more room to develop.

There are now available for roadside planting a number of lindens, a few elms, maples and catalpas.

We feel that a few hundred seedlings of different kinds should be planted this year to provide stock after those now

growing have been taken out, and we recommend an appropriation of one hundred dollars (\$100.00) to cover costs of this, and provide labor for the coming year.

Respectfully submitted,

ALLAN McINTOSH,
ERNEST RILEY,

Committee on Town Nursery.

REPORT OF THE SUPERINTENDENT OF MOTH DEPARTMENT

To the Honorable Board of Selectmen:

Gentlemen: — I herewith submit the report of the Moth Department for the year ending December 31, 1933.

There has been a definite increase in numbers of Gipsy moth during the past year. Inspection and creosoting of the egg clusters in the woodlands shows them to be more widely spread than last year, there being no section so far inspected which is entirely free.

The most heavily infested section is along Charles River from Dedham Avenue to the South Natick Bridge and in the North Side of Charles River Street from the bridge to Central Avenue.

There has been an alarming increase in the pest in Dedham, Westwood and Dover during the past year. Many acres of woods in these Towns have been stripped of foliage, and Needham will surely be in the same condition unless preventive measures are taken this year.

A wide protective strip should be sprayed along our highways and in some of the woodlands in addition to the annual creosoting. This will necessitate the purchase of about seven hundred feet of hose and at least two tons of lead arsenate besides the employment of five extra men during the spraying season.

The creosoting in the woods is now being done by a gang of four men and a foreman on a federal payroll. These men will probably cover our entire woodland area within the allotted time, but if this work is to be continued next winter the expense must be borne by this department.

All our roadside elms were sprayed for the elm leaf beetle in June. Many webs of the fall web worm were cut off and destroyed.

Five men and a foreman are now working in Needham on a federal brown tail moth project, but at this date have found none.

Respectfully submitted,

ERNEST E. RILEY,
Superintendent.

REPORT OF TREE WARDEN

To the Honorable Board of Selectmen:

Gentlemen:— I herewith submit the report of the Tree Warden for the year ending December 31, 1933.

Having a number of men from the Department of Public Welfare at its disposal, this department was enabled to do considerable trimming and a small amount of cavity work.

Much dead wood has been removed, and low branches overhanging streets and obstructing the lights have been taken out.

About sixty trees have been transplanted from the nursery to the roadside. We were unable to do all the planting on account of early freezing last fall, but there are a number of trees in the nursery which should be set out in the spring.

Some of our trees are in a deplorable condition because of neglected cavities, but we have been unable to remedy this condition through lack of funds for material and labor.

Respectfully submitted,

ERNEST E. RILEY,

Tree Warden.

REPORT OF SEALER OF WEIGHTS AND MEASURES

Needham, Mass., December 31, 1933.

To the Honorable Board of Selectmen:

I herewith submit the annual report of the Sealer of Weights and Measures Department.

One hundred and twelve annual inspections were made.

It would be well if the public checked the price, weight, and total cost when making purchases. Also check the number of articles, the price of each with total.

Any irregularity as to weight or measure should be reported to the Sealer at once.

Fees amounting to \$92.47 received and turned over to Town Treasurer.

Respectfully submitted,

WILLIAM H. STANTON,

Sealer of Weights and Measures.

REPORT OF DOG OFFICER

To the Board of Selectmen:

I herewith submit my report for the year ending December 31, 1933. Nine hundred and fifty-two dogs' licenses and one Breeder's license were issued, showing an increase of ninety-eight over the preceding year.

I have had numerous complaints from automobile drivers with regard to dogs chasing cars. This habit is very dangerous to drivers and to dogs and owners of such dogs should keep them restrained in order to avoid accidents.

A number of dogs running at large without collars have been disposed of. If dogs were properly collared with their license number attached, owners could be promptly notified in regard to stray dogs.

Respectfully submitted,

WILLIAM W. HEWETT,

Dog Officer.

REPORT OF FISH AND GAME WARDEN

January 4, 1934.

To the Honorable Board of Selectmen:

Gentlemen: — I herewith submit a report as Fish and Game Warden.

The licenses of hunters and fishermen numbering one hundred and two were inspected and found correct.

There were no convictions or arrests for violation of the fish and game laws.

The open season on Quail and Hen Pheasant in Norfolk County improved hunting conditions and in general game was more plentiful.

Liberations of fish and game in Needham covers and waters during 1933 were as follows: One hundred and thirty-two quail, seventy-two pheasants, five thousand brook trout in Rosemary and Clay brooks and one thousand each of rainbow and brown trout in the Charles River. These were furnished in part by the State and liberated by the Needham Sportsman's Club, Inc.

Respectfully submitted,

ALLAN D. McINTOSH,

Fish and Game Warden.

REPORT OF THE BUILDING INSPECTOR

Needham, Mass., December 31, 1933.

To the Honorable Board of Selectmen:

Gentlemen:— I herewith submit my seventeenth annual report as Building Inspector, and the twenty-first of this department.

The estimated cost of construction, a total for the year of \$299,492, is shown by the monthly issue of permits as follows:

	No. Permits	Estimated Value
January	6	\$3,742 00
February	7	8,400 00
March	7	14,600 000
April	9	7,975 00
May	11	19,750 00
June	18	35,975 00
July	15	23,425 00
August	26	57,100 00
September	23	33,725 00
October	22	65,800 00
November	12	23,200 00
December	4	5,800 00
Totals	160	\$299,942 00

The number of building permits issued from this office during the past year is 160; classified as follows:

	No. Permits	Estimated Value
Dwellings	41	\$237,150 00
Garages	46	16,575 00
Additions and Alter.	54	27,467 00
Stores	1	10,000 00
Miscellaneous	18	8,300 00
Totals	160	\$299,492 00

During the year there were ten permits authorized by the Board of Selectmen and issued as follows:

Gas Stations.....	3
Temporary Structures for produce.....	2
Temporary screening plant	1
Addition to dog kennel	1
Addition to dwelling	1
Three-car garage.....	1
Alteration to factory for garage.....	1

The plumbing inspectors appointed this year by the Building Inspector are:

Jeremiah F. Buckley, 109 Dedham Avenue, who has held this office for the past forty-one years. Appointment expires April 28, 1934.

Llewellyn W. Stevens, 796 Webster Street. Appointment expires April 28, 1935.

Harold D. Toone, 191 Hillside Avenue, Needham Heights. Appointment expires May 5, 1934.

During the year one offender was taken to Court by this Department for violation of the plumbing laws. The case was placed on file.

The Building comparison for the past seventeen years is shown by the following record of the yearly totals of estimated value of all permits issued.

1917.....	\$211,120 00
1918.....	102,485 00
1919.....	384,876 00
1920.....	332,825 00
1921.....	655,090 00
1922.....	716,620 00
1923.....	1,166,950 00
1924.....	1,376,100 00
1925.....	1,223,720 00
1926.....	980,865 00
1927.....	1,060,225 00
1928.....	1,205,795 00
1929.....	1,873,435 00
1930.....	945,790 00
1931.....	748,245 00
1932.....	216,640 00
1933.....	299,492 00
	<hr/>
	\$13,500,273 00

The lodging houses of the Town have been inspected and made to comply with the State regulations.

The amount collected for permits and turned over to the Town Treasurer for the use of the Town is as follows:

Building.....	\$494 50
Cesspools.....	90 00
Plumbing.....	524 50
Gas.....	94 00
Wire.....	880 60
	<hr/>
	\$2,083 60

This is an increase in receipt over last year of \$555.65.

A certificate for occupancy is issued for all buildings after a final inspection is made by the building inspector, and the plumbing and wiring inspections are completed.

All permits issued under the authority of the Building Code must be taken out before work is started.

Office hours of the Inspection Department are from 9 to 12 A.M. each weekday excepting Saturday, Town Hall. Telephone: Needham 0128J.

Penalties

Whoever violates any provision of these By-Laws shall be punished by a fine of not more than one hundred dollars.

In conclusion I wish to express my appreciation of the co-operation and support given this department by the Board of Selectmen and other departments of the Town.

Respectfully submitted,

H. HOWARD UPHAM,
Building Inspector.

REPORT OF WIRE INSPECTOR

December 31, 1933.

To the Honorable Board of Selectmen:

Gentlemen: — Herewith is submitted the report of the Inspector of Wires for the year ended December 31, 1933, giving a monthly record of permits issued and the amounts of money paid over to the Town Treasurer.

Month	No. Permits	Paid Treasurer
January.....	21	\$52 50
February.....	11	23 25
March.....	23	43 00
April.....	15	25 00
May.....	39	97 00
June.....	23	72 35
July.....	48	99 25
August.....	60	108 25
September.....	41	84 50
October.....	60	104 00
November.....	27	94 00
December.....	30	77 00
	398	\$880 60

There has been an increase in the number of permits issued during the year 1933 over those of 1932—an increase of 34 permits and an increase in revenue of \$62.67. For the past five-year period the record is:

Year	No. Permits	Income
1929.....	464	\$1,462 90
1930.....	419	1,168 15
1931.....	447	1,063 90
1932.....	364	817 95
1933.....	398	880 60

The permits issued this year were nearly all for electrical appliances.

Copies of the Rules and Regulations governing the installation of wiring and appliances may be had at the office of the Inspector of Wires in the basement of the Town Hall between the hours of 9 A.M. to 12.00 noon daily, except Saturday.

A permit must be obtained before any wiring or electrical work is started.

Respectfully submitted,

JOSEPH ALEXANDER,
Inspector of Wires.

Highway Department

Betterment Streets

Lines and grades were furnished to the Highway Department for continuation of the construction of Mount Vernon Avenue under the provisions of law authorizing the assessment of betterments as laid out and accepted by the Town on March 21, 1932.

Granolithic Walks

Lines and grades were established, plan and schedule was furnished for the levying of an assessment under the Betterment Act due to the construction of 125 linear feet or 105 square yards of granolithic walk on the east side of Great Plain Avenue northerly from Hillcrest Road.

All of the above granolithic work was performed by the Highway Department and the cost to the abutter was based on 50% of the total charge for public property and 100% charge on private property.

Lines and grades were given to the Highway Department for setting 125 linear feet of granite curbing on the corner of Hillcrest Road and Great Plain Avenue and northerly on Great Plain Avenue.

Drains

Continued study of various drainage districts have been made this year. Twelve section maps drawn to the scale of 1 inch to 200 feet have been completed. All existing and proposed drainage systems showing the various sizes and directions of flow are being incorporated into the plans by men employed for this work under the C. W. A. Project No. 3672. Completion of this work will furnish much needed information to the Town.

Lines and grades were furnished to the Highway Department for installing a few drains this year on such streets as Chestnut Street, Hillcrest Road, Washington Avenue Extension and Birds Hill Brook, details of which are contained in the report of the Superintendent of Streets.

Plans and schedules were prepared and submitted to the State Civil Works Administration which were approved for

the construction of 6,600 linear feet of drains under Project No. 1871.

Sewer Department

Lines and grades were established for the construction of various sewers, details of which are contained in the report of the Superintendent of Sewers.

Surveys and plans were made and schedules submitted to the Sewerage Commissioners for levying of assessments under the Betterment Act on the properties benefited by the completion of the sewer in Pinewood Road and Manning Street Extension.

Two additional Record Sewer Plans were made this year making a total of eighty-seven street plans and two index plans on file in the custody of the Sewerage Commissioners.

Assessors' Department

An accurate survey covering an area of approximately 1,185 acres was made this year, about 95 acres of which was included in the area bounded by May, Nehoiden, Rosemary Streets and the N. Y., N. H. & H. R. R.; the balance of the area being bounded by Chestnut Street and the N. Y., N. H. & H. R. R., the Dedham Town Line and the Charles River. The results of this survey are shown on eight record plans, making a total of twenty-eight plans on file in the Engineering Department, from which twelve block plans will be made and furnished to the Assessors as in other years, making a total of forty-three plans submitted by this Department. The continuation of this work is being carried on by men working under the C. W. A. Project No. 1796.

Prior to the establishment of the Engineering Department 810 acres were completed by private engineers from available appropriations amounting to \$3,000 in four years, being on the basic cost to the Town of \$3.70 per acre. Since the establishment of the Engineering Department we have completed 4,213 acres from allowances made in engineering appropriations amounting to \$4,000 in four years, being on the basic cost to the Town of .95 per acre. Therefore, from the total 8,162 acres of the Town there remains a balance of 3,150 acres to be completed at a cost of about \$3,000 on the present basis.

We, therefore, urge the completion of this work as soon as possible which will result in considerable value to the Assessors as well as to all Town departments. Results of this work are shown on Record Plans on file in this office and are applicable to all work, such as numbering of houses, street layouts, drains, sewers, water and other public works programs.

Planning Board

Preliminary plans have been checked and approved as submitted to this Board for consideration of proposed street extensions and sub-divisions. The Town Zoning Map has been corrected and brought up to date.

Board of Survey

Lines and grades of the following street layouts have been passed upon before being presented to the Board of Survey: — Paul Revere Road, Glendale Road, and Mayflower, Stockdale, Pilgrim and Alden Roads in the Powder House Park Development.

Hearings were called and streets were approved.

School Department

The two-mile limits from the Senior and Junior High Schools were established at the request of this Department on the following streets: — Lawton Road, Broad Meadow Road, Green Street, Highland Circle and Evans Road.

Unclassified Engineering

Under this heading the Engineering Department lists all other work which previous to the establishment of this Department was financed from the Unclassified Account and others in which no appropriation for engineering work is now made available. Therefore, costs of such work are financed wholly from the Engineering Appropriation and are not charged back to other departments.

Proposed Streets

Surveys and plans have been made by men working under Project No. 1796 of the C. W. A. of the following streets proposed to be accepted and built under the Betterment Act during 1934: — Warren Street Extension, Hawthorn Avenue, Laurel Drive and Highland Terrace. A total of \$80 which has been expended should be charged to these streets when constructed.

House Numbers

During the past year this Department has assigned house numbers only at the request of property owners. It is quite evident that houses on various streets throughout the Town should be renumbered and in many cases street names should be changed. However, it is hoped that extension of the work now being carried on by the C. W. A. may be allowed which will provide for a complete house numbering system of the Town.

Street Lighting

The Engineering Department has continued the work of the Special Committee on Street Lighting. Various communications have been made with the Edison Company and all bills submitted to the Town have been checked and approved. On March 27, 1933, the Edison Company was notified that the necessary appropriation was available for the cost of operating the system based upon the Committee's recommendations and to proceed at once and make the changes.

Work commenced April 4 and was completed on May 3. The cost to the Town was below the estimate and from the appropriation of \$23,621 a balance of \$367.16 was returned to the Treasurer.

System Prior to Reductions	Existing System In Operation Since May 3, 1933
907 — 80 cp.	870 — 80 cp.
57 — 600 cp.	3 — 250 cp.
13 — 1,000 cp.	28 — 600 cp.
25 — 1,500 cp.	20 — 1,000 cp.
Annual Cost \$25,801.50	\$21,282.00

Good street lighting involves proper visibility and appearance as well as economy. In accordance with the recommendations of the Committee our street lighting system has been changed to provide proper spacing and reductions have been made which provide sufficient lighting on most streets.

Reductions from the old type 600 cp. lamp to 80 cp. lamp on such streets as Great Plain Avenue and Highland Avenue were at the time the only practical changes that could be economically made. However, it would appear that certain places are not sufficiently lighted. This condition should be corrected as soon as the Town can warrant expending a small additional cost to provide for a new type of lamp on 8-foot cross arm on such streets as these which are seriously affected by foliage.

Town Districts

The sub-division of the Town into districts for Representative Town Government was done by this Department. Various working plans were submitted to the Selectmen from which it was determined that the Town could be most favorably divided into five districts. This was done on five plans which divided voters equally as well as linked the central and outlying populations. From these five plans one was selected which was adopted on October 3, 1933. A considerable amount of work was involved as it was necessary to determine on the map the location of each voter. Then by adding the number of voters on each street to obtain the total voters in

each block it was possible to construct the districts approximately equal.

Reclamation of Swamps

An average force of ten men started work on February 1, 1933, and continued the work of cleaning Rosemary Brook and the swamp lands between Central Avenue and Rosemary Street for the purpose of eliminating stagnant pools as breeding places for mosquitoes. Labor was furnished by the Special Unemployment Construction Work Committee. This work formulated by the Committee terminated April 1, 1933, with a payroll expenditure of \$445.21.

Project No. 146 as approved by the C. W. A. allows for the employment of twenty men who have continued this work since December 1, 1933.

The total length of Rosemary Brook has been cleaned as far as Chestnut Street near the railroad at Needham Junction. Considerable benefit can result from this type of work which will be continued in other localities throughout the Town providing the C. W. A. project may be extended.

Miscellaneous

Street lines and grades have been furnished on various streets, boundaries of which were not well defined.

All necessary service has been rendered to the Legal Department.

Various investigations of sand and gravel pits have been made and assistance rendered to the Selectmen for the purpose of protecting the Town's interest in the issuance of permits.

This Department has endeavored to continue the practice of procuring all valuable engineering data and rendering assistance to all property owners and others relative to street lines, grades, Town Zoning Laws, Town By-Laws, etc. We invite the scrutiny of property owners of plans on file in this office for the purpose of correcting any possible errors or misunderstandings regarding public or private properties.

I take this opportunity to thank all department assistants for the careful execution of their duties; also all other department heads who have so generously rendered their support in an effort to make this year's work successful.

Very respectfully,

LESTER C. HOLLIS,

Member, Boston Society of Civil Engineers.

THE ANNUAL REPORT OF MEMORIAL PARK TRUSTEES FOR THE YEAR 1933

There was no new work undertaken on Memorial Park this year. Mr. Patrick Hughes was again secured as caretaker. His conscientious work made it possible to maintain the park in excellent condition. The Welfare Department furnished on an average of two men a day and good work was done in ridding the Football fields and Baseball diamond of weeds.

The athletic fields were used by the High School and Junior High for Baseball, Football and Track.

During the summer six organized Baseball Teams used the Diamond every pleasant evening and Saturday afternoons.

Respectfully submitted,

T. J. CROSSMAN,

Chairman of Memorial Park Trustees.

REPORT OF THE TRUSTEES OF THE GLOVER MEMORIAL HOSPITAL

To the Honorable Board of Selectmen:

The Trustees of the Glover Memorial Hospital respectfully submit their report for 1933.

The hospital continues to serve the community in tenderly caring for those who desire its services.

All to whom we are privileged to minister are cheerfully given kind and sympathetic care and attention.

To relieve suffering and restore health is our constant endeavor and highest aim.

Our facilities are often taxed to the utmost, especially with emergency and accident cases and it is fortunate the town has this haven of refuge in such emergencies.

Our faithful assistants are doing their very best in rendering efficient service to our patrons and co-operating with us in our efforts to conduct the institution on an economical basis.

Respectfully yours,

JAMES M. McCRACKEN,

WM. MITCHELL, M. D.,

DAVID E. MANN, M. D.,

FRANCES E. ROWLANDS,

MARGARET O. CHASE,

Glover Memorial Hospital Trustees.

SUPERINTENDENT'S REPORT

To the Board of Trustees of the Glover Memorial Hospital and to the Citizens of the Town of Needham:

The following is a brief report of the work carried on at the Glover Memorial Hospital for the year ending December 31, 1933:

Number of patients admitted.....	541
Average stay in hospital.....	7 days
Number of male patients.....	305
Number of female patients.....	236
Number of medical cases.....	23
Number of surgical cases.....	317
Number of maternity cases.....	59
Number of births.....	59
Number of outpatients.....	308
Number hospitalized.....	233
Surgical Operations, major.....	63
Surgical Operations, minor.....	254
Deaths.....	9
Adults.....	5
Babies (stillborn).....	2
Children, one dead upon admittance.....	2
Number in hospital, December 31, 1933.....	6

Donation Day was November 9, 1933.

The Ladies of the Hospital Aid gathered at the hospital and assisted in receiving and packing away donations, which consisted of: preserves, fruits, vegetables, and canned goods. Those who had cars collected from the various schools. Considering the trying times to which the citizens of the town have been subjected, we are happy to state that this year donations have far surpassed those of previous years.

At four o'clock, tea was served by the hostesses, Mrs. Frances Rowlands and Mrs. Margaret O. Chase.

The Helen Peabody Pond Room was opened to the public and met the approval of all.

We are deeply grateful to the members of the New Century Club, who sponsored the Helen Peabody Pond Trust Fund, for the complete furnishings of the room.

Although we are greatly pressed for bed space, we have been able to take care of one hundred and fifty (150) patients in excess of last year's census.

Respectfully submitted,

B. J. YOUNG, R. N.,

Superintendent.

REPORT OF PLANNING BOARD

Needham, Mass., December 30, 1933.

To the Inhabitants of the Town of Needham:

The Planning Board has held the usual sessions on Tuesday evening of each week to hear all persons who desired to discuss with the Board any problem or suggestion which the Board might be interested in.

Several applications were made for the changing of the Zoning By-Law on Route 128 with the idea of erecting gas stations. The Planning Board made a thorough investigation of these problems and after careful consideration, decided it was not for the best interests of the town to change the Zoning Laws relative to land bordering on Route 128. The matter was brought up at the regular Town Meeting in March and by an overwhelming vote, the Town's people endorsed the stand taken by the Planning Board.

Your Planning Board and the Board of Selectmen co-operated on many projects during the past year. Notable among these were the matter of billboards and the better regulation of gravel pits.

Two permits for new gas stations were granted by the Board of Selectmen. At the suggestion of the Planning Board one of its members was appointed by the Selectmen to consult with the applicants of the new gas stations with the idea of the development of better type stations and more adequate control of these stations.

Your Planning Board was also called upon to assist in the development of C. W. A. projects and considerable time and study was put into this work. As a result of which a number of the so-called white collar men of Needham were given employment.

The support which the Planning Board has received from the other Boards of the Town Government and from the citizens who have been interested in the various problems presented has been much appreciated and the Planning Board bespeak their further support and co-operation.

Respectfully submitted,

ARTHUR W. ROHN, *Chairman*,
GEORGE A. YOUNG, *Secretary*,
ARTHUR G. CURREN,
ERNEST B. ALLEN,
WILLIAM ADAMS,

Town of Needham Planning Board.

REPORT OF THE FIRE AND POLICE STATION BUILDING COMMITTEE

To the Inhabitants of the Town of Needham:

At the Annual Town Meeting, March 17, 1930, it was voted that the Committee of Advisability on new Fire and Police Station be constituted a special Committee to act as Town agents, with power to employ an architect and to build a new fire and police station on the Kimball School site at the corner of Chestnut and School Streets, and the sum of \$1,000 was appropriated for the use of the Committee. The Committee was without authority to make any contract for the construction of said building until the specified appropriation of \$100,000 was made at a Special Town Meeting, June 23, 1930.

The Committee selected as architect, George Ernest Robinson of Boston, whose plans embodied advanced ideas for a fire and police station in a building of Colonial design. The general contract was awarded to the C. A. Batson Co., of Brockton. Both architect and builder co-operated with the Committee to the fullest extent in securing the greatest value for the money expended and the employment of local labor as far as possible.

The Fire and Police Station Building, located at the corner of Chestnut and School Streets, former site of the Kimball School, is constructed of brick, with concrete floors, and slate and tile roof. The Committee followed carefully the original idea of a Fire and Police Station combined in one unit, yet so designed as to insure the unrestricted effective operation and privacy of each department.

The fire station has an apparatus floor of about 2,700 sq. ft., which affords ample space for all equipment necessary for years to come; adequate space for a modern fire alarm system; provision for housing forest fire equipment, the fire alarm maintenance department, a machine room and suitable administrative, recreation and living quarters for officers and men.

The police station embodies new ideas in design which are proving most practicable and are providing for maximum efficiency. The principal feature is the centrally located booking desk so situated as to provide for complete control of the entire building from this point. Incorporated in the police building is a large guard room; an emergency room completely equipped for the handling of all cases; ample cell arrangement for both male and female prisoners; juvenile detention room; a model shooting range; and garage space for department cars. The station also provides a recreation room and all facilities necessary for the operation of the department.

At the Town Meeting, March 23, 1931, the sum of \$5,000 was appropriated for grading and building approaches, and at a Special Town Meeting October 19, 1931, the sum of \$14,000 was appropriated for general and departmental equipment. These sums have been expended in accordance with Town votes by the Committee, which awarded the grading contract to the C. A. Batson Co.

The Committee is pleased to report that it has been able to meet all requirements within the appropriations placed at its disposal. Plans of the work done, contracts, and vouchers covering all expenditures are on file with the Town Clerk.

On January 15, 1932, the police department moved from the Town Hall, their quarters for more than a quarter century, to the new building; and on January 23, the fire department moved into the new station, across the street from the old building, which dated back to the eighties. On March 12, 1932, both stations were opened for public inspection. Business and other details were completed in the following months, and on January 10, 1933, the Fire and Police Station Building was formally turned over to the Board of Selectmen, representing the Town of Needham.

Splendid co-operation has been shown by the Town departments at all times, and this spirit, which has been most helpful, will remain with the Committee as one of the most pleasant recollections of its work.

Respectfully submitted,

ARTHUR W. LITTLEHALE, *Chairman*,
 DANA L. SOUTHWORTH, *Secretary*,
 LEONARD DAWSON,
 WILLIAM F. BROWN,
 HENRY D. BLACKMAN,
 T. ROBERT QUINLAN, *Chief of Fire Dept.*,
 ARTHUR P. BLISS, *Chief of Police Dept.*,
Fire and Police Building Committee.

REPORT OF THE BOARD OF HEALTH

To the Citizens of Needham:

The Board of Health feels that the year 1933 has been one of considerable gain in its activities. This was made possible by the much appreciated co-operation of the School Committee in making a joint request with the Board to have the Chadwick Clinics conducted in the Schools. Also, in October, the School Committee, strongly urged by the Board, allowed the use of the School Buildings for the diphtheria clinics. Another much-needed step in the health program was made possible by the C. W. A., when a project submitted by the Board, was approved, which included the services of a nurse and clerical assistance. Both of these were much needed. The Board has never had a clerk. The routine office work should be handled by a clerical assistant, so that more of the time of the Health Officer can be spent on professional duties.

Another project of the Board was approved by the C. W. A., and the very important mosquito control work was continued. The Board is gratified to note that the C. W. A. has also made possible the extension of the sewerage system. This has always been of great interest to the Board. The work of the Sewerage Commissioners has had our unqualified support. The work of further extending the system to include North and East Needham should not be delayed any longer.

The Board wishes to express its most sincere appreciation to all those who helped in the work of diphtheria immunization. The diphtheria clinics, quickly organized, could not have been carried out without the assistance of the physicians of the Town who gave their services; the members of the New Century Club under the Public Health Committee; the women who volunteered their services as nurses; the school teachers and Mrs. Smith, the school nurse; and Miss Minor, the visiting nurse. Especially are thanks due to the Visiting Nurse Association for giving us the services of Miss Minor for six afternoons.

The tuberculosis situation in Needham has long been of concern to the Board of Health. For a number of years it has been recommended that a tuberculosis clinic be established with the services of a part-time nurse. Since October, 1932, the Norfolk County Health Association has sent a nurse to the Town of Needham regularly. The Board is most grateful for the splendid work done by Miss Nevers. This assistance will no longer be available, and the time has come when the Town must assume this responsibility. The Chadwick Clinics and Miss Nevers' records show the absolute necessity of the work. The Board would deem itself negligent in its duty to the citizens of the Town if it did not urge now that

this service be undertaken. A clinic could be established, which would be held once a month, to meet the immediate requirements at a minimum cost. It is the accepted practice in other communities. Tuberculosis is curable. It is preventable. The responsibility of the continued death of patients discovered too late should no longer have to be borne by the Board, handicapped solely by lack of funds.

The following record shows the number of known cases of tuberculosis in the Town of Needham.

Pulmonary	Childhood type	Other Forms	Total
47 (16 active)	26	2	75
Contacts (approximately)			225

It is the belief of the Board of Health that the citizens of the Town will support the new program for a tuberculosis clinic and a part-time nurse.

The following recommendations are made:

1. Continuation of Diphtheria Clinics in Schools.
2. Establishment of a Tuberculosis Clinic.
3. Employment of a part-time Nurse.
4. Extension of Mosquito Control Program.
5. Extension of Sewerage System.

LESLIE B. CUTLER, *Chairman*,
DAVID E. MANN, M.D.,
ROBERT N. McCLELLAN,
Board of Health.

REPORT OF THE HEALTH OFFICER, 1933

To the Board of Health of Needham:

I have the pleasure to submit the following report for 1933.

General Administration and Vital Statistics

At the end of March, 1933, the office and laboratory was moved from the quarters in the office building at 975 Great Plain Avenue, which had been occupied since May, 1931, back to the Town Hall where a room in the basement was fitted out as a combination office and laboratory. This change has resulted in the saving of \$50.00 a month for rent. All persons are invited to visit the office and laboratory in its present location.

As part of the administrative duties, 134 licenses were issued in 1933, as shown in Table I.

TABLE I — LICENSES AND FEES — 1933

Number Issued	License for	Fee	Amounts Received
35	Denatured alcohol	\$1 00	\$35 00
18	Manicure and massage	1 00	18 00
73	Milk	50	36 50
4	Pasteurizing plants	10 00	40 00
4	Undertakers	1 00	4 00
134	Licenses issued	Total fees received	\$133 50

The vital statistics for recent years are noted in Tables II and III. The birth, death, and infant mortality rates shown in these tables have been corrected by deducting stillbirths and non-residents, and including the births or deaths of residents which occurred outside of Needham. The infant mortality rate is a sensitive index of the health standards of a community and is the number of deaths of infants under one year of age per 1,000 live births in a year. The population is estimated as of July 1 of each year, and is based on the Federal Censuses.

TABLE II
POPULATION AND CORRECTED DEATH RATES

Year	Mid-Year Population	Deaths of Non-Residents	Stillbirths	Deaths of Residents	Resident Death Rate per 1,000 Population

Communicable Diseases

General

A total of 663 cases of communicable diseases were reported in 1933. For purposes of comparison, the number of cases of communicable diseases reported each year since 1929 are shown in Table IV.

Needham was again fortunate as regards infantile paralysis (anterior poliomyelitis) as only one case occurred, with but slight paralysis. Six cases of lobar pneumonia occurred, 3 of which were fatal. The increase in the number of cases of communicable diseases over preceding years can be attributed to the unusual prevalence of mumps, particularly at the close of the year. Although nearly 300 cases of mumps were reported in 1933, the majority of the cases occurred in children and were, for the most part, mild attacks.

Of far greater significance is the fact that three cases of diphtheria occurred, two of which were fatal. The two fatal cases were in children, one age three, the other age 11. If these children had been protected against diphtheria by the use of toxin-antitoxin, undoubtedly these deaths would not have occurred. It was found through the routine laboratory examinations of cultures from the contacts, that two members of the families in which the cases occurred had become healthy carriers of diphtheria as a result of exposure to the case. Both of these persons were hospitalized, tonsillectomies were

performed, and the carrier condition was corrected so that these two people were no longer potential sources of infection.

Tuberculosis

In May, the Chadwick Clinic for the detection of tuberculosis in school children was conducted in the schools. 1221 tuberculin tests were given and 450 children (37% of those tested) reacted. Portable X-ray outfits were set up in the Board of Health office and in the basement of the Library where the reactors were X-rayed. 55 individuals whose X-ray findings were suspicious were given a thorough physical examination at which parents were present; these examinations were accompanied by consultation with a nutritionist. As a result of the Clinic, 17 new cases of the childhood type of tuberculosis (hilum tuberculosis) were reported, together with 20 suspicious cases. All of these cases have been kept under observation and no further treatment other than greater home care and the following of the essential rules of health was found necessary. Two children were sent to the Norfolk County Health Camp at South Braintree for the summer and were greatly benefited by this supervised vacation.

Six new cases of adult pulmonary tuberculosis were reported. The only death from this disease which occurred in Needham was of a non-resident. Six individuals were hospitalized.

Nursing

In 1932, it was recommended by the Executive Board of the Norfolk County Health Association that the services of the Executive Secretary be made available to towns where no definite tuberculosis nursing program was carried on. The Needham Board of Health, being without such nursing service, accepted this offer. The Executive Secretary, Miss Marian S. Nevers, a registered nurse, began work in Needham in October, 1932. Her services continued throughout 1933, and included the follow-up of discharged sanatorium cases, the check-up and re-examination of all old reported cases and contacts of tubercular patients, and preliminary visits to new cases. Instruction was given where needed in the care and disposal of sputum, dishes, bedding, etc. All work was done under the direction of the Health Officer, and the consent of the family physician was obtained before home visits were made. The following is a summary of the work accomplished by Miss Nevers from October, 1932, through 1933:

69 days were spent in Needham on tuberculosis work.
309 home visits were made of which

85 were in connection with the Chadwick Clinic, non-consents, and follow-up of children examined.

41 were to discharged sanatorium cases.

183 were to reported cases.

52 individuals were transported to, examined and X-rayed at the Norfolk County Hospital. Of these

19 were diagnosed as having the childhood type of tuberculosis, or suspicious of this type, or as the pulmonary type, or suspicious pulmonary.

17 were already known or suspected as cases and were re-examined and re-X-rayed.

16 were negative.

This splendid and much-needed piece of work was made possible by the sale of Christmas seals.

On December 7 the services of Mrs. Rose M. Mayers, a registered nurse, were made available to the Board of Health by the Civil Works Administration. In the short period of time to the close of the year, Mrs. Mayers made twenty-nine home visits to urge completion of the inoculations in the case of children who did not receive all three doses at the diphtheria clinics. In addition to checking up on nursing records, fourteen home visits were made to tuberculosis patients.

Diphtheria Immunization

A notable advance in the enlargement of the diphtheria immunization program was made possible through the co-operation of the School Committee and the School Department when the clinics were conducted in the schools. This was one of the most important pieces of work of the year. During November, clinics were held in all of the schools except the Junior and Senior High Schools immediately after school. Pre-school children were also immunized at the same clinics. Six clinics a week were held for a period of three weeks. The following table summarizes the work of the clinics:

Sanitation

In addition to laboratory analysis of milk, inspections were made of local dairies and pasteurizing plants in and around Needham. The four establishments for the pasteurization of milk located in Needham were again licensed in 1933. 22 dealers were licensed to sell and distribute milk and 51 milk licenses were issued to retail stores. Bakeries and other food-handling establishments were inspected throughout the year. Two new bakeries were registered in 1933.

48 licenses for the disposal of rubbish were issued. As in 1932, through the co-operation of the Department of Public Welfare, a man was stationed at the town dump on Central Avenue throughout the entire year. As a result, the dump was maintained in good condition and unsightliness reduced to a minimum. The numerous complaints received were thoroughly investigated; much of the time of the Health Officer is consumed by these investigations. As in previous years, the majority of the complaints related to overflowing cesspools and improper disposal of rubbish.

During January and February the work in the mosquito control project, which was inaugurated by the Board of Health in 1932, was continued by a crew of a dozen men working under the capable supervision of Town Engineer Hollis. Owing to a lack of funds no further work could be done until December when twenty men were put to work as a result of the C. W. A. As the most important breeding area is the Rosemary Brook section, the drainage operations have been carried out along the banks of this brook.

Laboratory

A total of 215 specimens (see Table VI) were examined for the physicians. These examinations, together with the analyses of milk, comprise the major part of the work of the laboratory. The laboratory analysis of the milk sold in Needham includes the determination of the bacterial content together with the percentages of butter fat and total solids. The milk continues to be of high quality.

With the establishment of the public beach on Rosemary Lake in the summer of 1933, frequent bacteriological analyses were made of the water. The samples were taken from the beach at the shore where the pollution would be greatest. The results of the analyses were satisfactory and showed the water to be safe for swimming.

REPORT OF SEWERAGE COMMISSION

Needham, Mass., December 31, 1933.

To the Citizens of Needham:

We respectfully submit the seventh and concluding annual report of the Needham Sewerage Commission for the year ending December 31, 1933.

During the year 1933 all construction work was undertaken as a means of unemployment relief. By vote of the Town \$35,000 was appropriated to the Sewer Construction Account. An additional sum of \$9,732.50 was transferred from the Sewer Assessment Reserve Fund to the Sewer Construction Account. These appropriations, together with a balance of \$5,745.75 in the account, made available a total of \$50,478.25 for construction work.

Up to November 20 construction was carried on employing men as recommended to the Sewer Department by the Welfare Department. Subsequent to November 20 construction was carried on under the Federal Government Civil Works Administration, the Government furnishing the funds for labor costs and the Department from its construction account paying for materials, supplies, engineering and superintendence. Departmental work under the C. W. A. will continue at least until February 15. If there should be any extension of time for the C. W. A. projects or additional allotments of money, there are ample funds in the Sewer Construction Account to further continue the program of sewer construction.

Most of the sewers constructed this year are not as yet connected with the general system and may not be placed in service until connected. This policy was adopted so that the burden of sewer assessments, which must be assessed six months after connection, could not be placed on abutters at this time. However, sewers have been built only where they are already needed or will be needed within the next few years. With the improvement of economic conditions, upon the receipt of petitions, or when sanitary conditions make it necessary, connections of the various sewers may be made to the general system, and the Town will receive from assessments much of the money spent on sewer construction as a measure of unemployment relief.

Since sewer construction began in 1925 a total of nineteen miles of common sewers have been built at a cost of \$356,028.13. There have been 539 house connections made to the system. Sewers have been constructed in most of the thickly settled streets of the Town. The provision of sewers has relieved unsanitary conditions in several sections and has opened up new areas for development. It has also provided

for the large increase of population in the Town during the last decade.

In closing the final report of this Commission mention should be made of the work of the first Sewerage Commissioners, Messrs. George A. Lord, Edward Seaver, and N. LeRoy Hammond, who gave so unselfishly of their time and ability. The splendid record of the Department is one which they can well recall with the pride of achievement and work well done.

We also wish to place on record our appreciation of the conscientious, capable and efficient management of the Department by Mr. Lester C. Hollis who has combined the office of Engineer of the Commission and Superintendent of the Department since its inception.

Respectfully submitted,

FRANK L. FLOOD, *Chairman*,
RUSSELL J. RICE, *Secretary*,
ROLAND C. MARCH,
Sewerage Commission of Needham.

Conclusion

In accordance with Article 9 of the March Town Meeting the Department has carried on an extension of the sewerage system as an unemployment relief measure.

A total of 3.18 miles of lateral sewers have been constructed and with the exception of Pinewood Road and Manning Street Extension, connections to the main sewers have been deferred, thereby preventing the levying of assessments on abutters at this time.

Construction commenced on Pinewood Road, April 20 and continued to November 18 on Hillside Avenue with an average force of twenty-eight men at which time the work was transferred to the C. W. A. and the working force increased to seventy-six men.

Approximately three miles were constructed prior to November 18 and about one quarter mile since that date under the C. W. A.

Assessments amounting to \$3,329.64 were levied this year on those properties benefited by the completion of the Pinewood Road and Manning Street Extension sewers which were petitioned for by a majority of the abutters.

The contract for furnishing and delivering Vitrified Clay Pipe was awarded to H. S. Locke & Son Company, whose bid was most favorable to the Town.

The resurfacing of sewer trenches has been carried on as usual by the Highway Department at a very low cost to this Department.

The process of cleaning and flushing has been carried on this year but not so extensively as in the past due to decreased appropriation. It will become necessary to increase the appropriation for sewer maintenance from year to year as extensions are made in order that this work may be continued in a systematic manner to insure against general accumulation of sewage deposits on lines where the slopes are not sufficient to maintain an unobstructed flow.

In addition to \$12,049.45 which was paid to labor for relief work made possible by the vote of the Town, the sum of \$911.54 was paid by applicants for house connections.

The increased cost per foot for sewers constructed this year averaged from about two dollars per foot, being approximately the same as last year, to about three dollars per foot under C. W. A. This difference was brought about by increased cost of labor and material, and also by excavation through excessive depths of frost. However, the C. W. A. work has extended the sewerage system about one-quarter mile at a cost to the Town of only ninety-five cents per foot.

Acknowledgments

In appreciation of the continued support and co-operation which has been accorded, the Superintendent wishes to thank all department heads and others who have rendered their assistance.

Very respectfully,

LESTER C. HOLLIS,
Superintendent.

REPORT OF DEPARTMENT OF PUBLIC WELFARE

December 31, 1933.

To the Citizens of the Town of Needham:

We respectfully submit this, the twentieth annual report of this department.

Aid has been granted to 298 cases as follows:

242 Temporary aid.

11 Mother's Aid.

45 Old Age Assistance.

This means that 944 persons were aided during the year compared with 747 last year. The highest point was reached during April when 217 Cases were being aided at one time.

The total gross expenditures were \$78,856.30. From this should be deducted reimbursements received, amounting to \$21,196.10 on account of unsettled cases, one-third of the expenses on account of Mother's Aid and Old Age Assistance cases; \$10,885.90 received from the Federal Emergency Relief Board; \$1,364.10 saving through persons given work on C. W. A. projects; and about \$12,000.00 saved different Town Departments on account of labor furnished by welfare recipients. This will make the net expenditures \$33,410.20. Please bear in mind that our Old Age Assistance cases cost \$12,641.36 and Mother's Aid cases \$7,375.07, so that the net cost to the Town on account of Temporary Aid cases was only \$14,255.32. There were 34 men given work on a Sewer project which was a saving to this department of \$7,154.26.

The supplies which are being sent by the Federal Emergency Relief Administration have almost doubled our work without any savings to this Department. These supplies are given to Welfare recipients and other families in need, with the understanding that they would have a little extra food in their homes and no one need go hungry.

The wood cutting project is still in progress and many needy families have been supplied with wood.

We wish to express our appreciation to all who have cooperated or helped in any way during the past year.

EVAN C. THORPE, *Chairman*,
ALFRED T. BAKER,
CATHERINE F. TAPPAN.

**REPORT OF THE TRUSTEES OF THE NEEDHAM
FREE PUBLIC LIBRARY FOR 1933**

In 1933 the Library and its deposit stations circulated seventy-eight thousand nine hundred and eighty-eight (78,988) books, which is sixteen hundred eighty-six (1,686) fewer than in 1932, our year of the greatest circulation. Since the depression more reading has been done upon the premises than formerly, and during the first eight months of 1933 fewer books than usual were purchased, the Trustees fearing that the appropriation would not hold out. The waiting lists are often long, but the Trustees do not feel justified in multiplying copies. Effective advertising seems to create an active demand for short lived and second rate novels.

Extensive renovations and repairs have been done on the Library building this year at the cost to the Library of the materials only, which cost may not exceed one hundred and fifty dollars (\$150), and it is possible may be considerably less. The report of the Librarian is expected to give some details, and also an account of the interesting and successful exhibitions that have been held in the Library. Mr. Irving H. Cowdrey and others have contributed much to make these exhibitions a success.

Nothing has been done to carry out, what is said to have been the plan of the architect of the Library building, in the matter of a second story of stacks above the main stack room, these proposed stacks to be of steel placed upon metal galleries with cross sections. A solid floor above the present stack room has never been considered as it would injure the appearance of the Library, and seriously affect the light. Such galleries and stacks are desirable but costly, and furnish comparatively little demand for local labor. The time is not distant when more stack room will be necessary.

Respectfully submitted,

GEORGE K. CLARKE,
Chairman.

NEEDHAM FREE PUBLIC LIBRARY LIBRARIAN'S REPORT

To the Board of Selectmen:

Gentlemen: — I have the honor to submit my annual report for the year 1933.

We are thinking a great deal these days about the terms "inflation" and "deflation" — their significance and their possible effects. During the last few years Public Libraries have come to know the terms intimately. We find ourselves here as elsewhere, faced with deflation of income, and with an inflated demand for books and services. In spite of diminished income in the last few years, the book circulation has steadily risen. In 1933, our circulation was 18.7 percent larger than in 1929.

The Library work with the public schools went forward as usual. The schools are increasing their requests for loans, since the school funds are not available for purchase of very much supplementary material. Books were loaned, as is our custom, at the Dwight, Stephen Palmer, Sixth Grade, Harris, Carter, Riverside and Eliot Schools. During the summer months, the Library loaned collections of books to the playgrounds at both ends of the Town, and also at Camp Malcolm and Camp Wind-in-the-Pines.

In connection with the work at the schools, the Librarian on March 20th, awarded two book prizes for the best book posters executed by students of the Senior High School to Barbara Fisher and Preston Packard. The winning posters were displayed at the Library, and were commented on very favorably. At the same time the Librarians arranged a display of American and foreign commercial posters, owned by the Library, in the library of the Senior High School.

The Library has been the recipient of more gifts than usual during 1933. The last of September, the Literature Committee of the New Century Club undertook a book drive in behalf of the Library. The members of the Committee asked for donations of children's books, and went out in person and collected them. This drive netted the Library about 200 children's books, which were gratefully received. This is the first time a project of this sort has been undertaken, and it met with much success, due to the efforts of Mrs. Nelson Talmadge and her committee. We also received a gift of a fine set of "The Pageant of America," in fifteen volumes, from Mr. Ira Hedges. Mrs. Harold Hill presented the Library with two large book cases, which are much appreciated.

The Library continues to lend its Lecture Hall for the use of various organizations: the Baby Clinic conducted by the

Visiting Nurse Association; classes in Home Nursing; and in May, 1933, to the Chadwick Clinic which examined the school children for possible cases of T. B. Some of the X-ray pictures were taken in the basement of the Library.

The Librarians attended a number of professional meetings during the year 1933. These included meetings of the Massachusetts Library Club; the Charles River Library Club in Waltham, Brookline and Arlington; and the Children's Librarians' Round Table in Boston and Quincy.

The Travel Reading Club, started in 1932, was continued in 1933. This club was formed to interest the children in reading during the summer vacations, and has proven very successful. In April, Gould Hulse, with the help of his brothers and sister, gave the club a fine puppet show, a dramatization of the favorite "Pinocchio." He made the puppets, wrote the play, and arranged the presentation himself, doing a very creditable piece of work. In July, Lloyd Bigelow gave an illustrated talk on a trip he had just taken to New York, and on September 1st, Prof. Irving H. Cowdrey showed beautiful colored slides he had taken of the Bay of Fundy, New Brunswick and Nova Scotia. The books chosen for the club reading in 1933 had as backgrounds either North or South America, and the young travelers learned many things about those two continents during their summer journeys.

During the summer two new sections of wooden shelving were added, and the entire adult non-fiction sections of books were shifted, an ambitious task. One more section of non-fiction, the books on religion, were taken to the basement stack room. This temporarily relieves the over-crowded shelves.

In June, the Welfare Committee sent a worker to wash the office walls and ceiling. C. W. A. work has also been done in the building. The men painted the entire basement walls and ceilings, and are working on the roof and clock-tower. A woman worker has been mending, pasting, and lettering books. This work started around December 15th, and will continue into 1934.

During Book Week, in November, the Library had a most interesting exhibit of ship models. These were borrowed from various owners in Town, and were beautiful and unusual. There were schooners, clipper ships, a Spanish galleon, a Viking ship, a ship model in a bottle, and many others. The exhibit attracted a good deal of attention from adults as well as the young people.

The Library has started a Special Collection. It has been decided on account of the local interest in the work of Mr. N. C. Wyeth, to start a special collection of the books for children illustrated by him. There is a good start made already,

and other titles will be added from time to time. The books will increase in value and interest as time goes on.

In connection with the ship model exhibit, Mr. C. H. W. Foster of Charles River, the well-known yachtsman, was kind enough to give the children a very interesting and instructive talk on boats and the sea in the Lecture Hall.

In 1933, the Public Library celebrated the 45th year of its founding. The Librarian and the Chairman of the Board of Trustees each wrote short articles for the newspaper.

On November 22nd, the Librarian gave a book-talk to the members of the Junior Guild of Christ Church.

The Librarian wishes to express her appreciation of the loyal and devoted efforts of the staff, and the unfailing support and co-operation of the Board of Trustees.

PRESTON MITCHELL,
ARNOLD MACKINTOSH,
AMOS H. SHEPHERDSON,
Commissioners of Trust Funds.

THE COMMONWEALTH OF MASSACHUSETTS
DEPARTMENT OF CORPORATIONS AND TAXATION
Division of Accounts
State House, Boston

January 19, 1934.

*To the Board of Selectmen,
Mr. Parkman D. Howe, Chairman,
Needham, Massachusetts.*

Gentlemen:—I submit herewith my report of an audit of the books and accounts of the Town of Needham for the period from September 1, 1931, to October 19, 1933, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Edward H. Fenton, Chief Accountant of this Division.

Very truly yours,
(Signed) THEODORE N. WADDELL,
Director of Accounts.

*Mr. Theodore N. Waddell,
Director of Accounts,
Department of Corporations and Taxation,
State House, Boston.*

Sir:—As directed by you, I have made an audit of the books and accounts of the town of Needham for the period from September 1, 1931, the date of the previous audit, to October 19, 1933, and submit the following report thereon:

The financial transactions of the town, as recorded on the books and records of the several departments receiving or disbursing town funds or committing bills for collection, were examined and reconciled with the books and records of the town accountant.

A number of the criticisms and recommendations made in this report are repetitions of those made in prior audit reports, as many of the statutes pertaining to municipal finance are still being violated. This is probably due, in part, to the continued neglect to publish the reports of the audits, as required by Section 40, Chapter 44, General Laws.

The books and accounts of the town accountant were examined and checked in detail. The recorded receipts were checked with the treasurer's books and departmental records, while the recorded payments were compared with the treasury warrants and the treasurer's books.

The interest received on the separate bank deposits representing sewer funds, as well as the committed and additional

interest on sewer assessments, should not be credited to the sewer assessment reserve account nor to the sewer department appropriations, but should be treated as general interest on town deposits and general interest on taxes and assessments, and used by the assessors as an estimated receipt and a deduction in determining the tax rate.

The appropriation accounts were examined, and all appropriations and transfers were checked with the town clerk's records of town meetings and with the finance committee's records of transfers authorized from the reserve fund.

In checking the appropriations to the accountant's ledger, it was found that some appropriations have not been set up in detail as voted by the Town. Separate ledger accounts should be kept of each item as appropriated by the town meeting.

It was noted that at a special town meeting held on May 23, 1932, it was voted that the sum of \$25,000 be appropriated and added to the reserve fund in the hands of the finance committee. Section 6, Chapter 40, General Laws, provides for a reserve fund to be voted at the Annual Town Meeting only.

At a special town meeting held on September 7, 1933, it was voted to transfer \$2,825 from the reserve fund to the school appropriation. An appropriation for the reserve fund once made, is entirely in the hands of the Finance Committee for transfer in accordance with Section 6, Chapter 40, General Laws.

It was also noted that the Annual Town Meeting for 1932 voted for highway purposes the sum received in 1931 from the State on account of the gasoline tax, despite the fact that that sum had been credited to the estimated receipts account of 1931 and used by the Assessors as an offset to the Highway Appropriation for that year and a deduction in fixing the tax rate for the year 1931, in accordance with Chapter 122, Acts of 1931.

The Accountant's ledger accounts were analyzed, the many necessary adjustments were made, a trial balance was drawn off, proving the ledger to be in balance, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the Town as of October 19, 1933.

Allotments received on account of co-operative highway work done in conjunction with the State and County were used as estimated receipts, although these collections were applicable and credited, when received, to the particular highway projects, as provided by Section 53, Chapter 44, General Laws. Transfers from one appropriation to another on account of services rendered or material furnished by one department to another were wrongly used as estimated receipts, although the department rendering the services or furnishing

the materials was credited with the amount of the transfer from the appropriation of the department receiving the service.

The deficits in the estimated receipts accounts for 1931 and 1932 were due, only to a small extent, to the fact that the Assessors over-estimated certain receipts to be collected from sources other than taxation and loans and used by them as a deduction from the amount to be raised by taxation in 1931 and 1932, but largely to the fact that they used certain items which may not properly or legally be used as deductions from the amounts to be raised by taxation. For example, amounts collected from tax title redemptions were included as estimated receipts although such receipts should be credited to surplus revenue, to which account the tax titles taken were originally charged; the Dog Fund received from the County was used as an estimated receipt in spite of the fact that the Town voted, as required by law, to use this money for library purposes.

The deficit in the Water Department for the year 1932 should be provided for. This deficit was caused by an appropriation for the Water Department in excess of the total amount actually collected during 1932 and of the water surplus available January 1, 1932, and by overdrawing the appropriation voted for the year 1932, due to emergency repairs and major replacements at the Pumping Station.

Approved vouchers and pay-rolls were examined and checked to the classification book. It was noted that the payment for insurance on a Sewer Department motor vehicle included the premium for property damage. As there is no liability on the part of the Town for property damage, the payment of the premium for such insurance should be discontinued.

The books and accounts of the Town Treasurer were examined and checked in detail. The recorded receipts were analyzed and compared with the records in the several departments collecting money for the Town, with the other sources from which money was paid into the Town Treasury, and with the records of the Town Accountant. The payments were checked with the Selectmen's Warrants authorizing the Treasurer to disburse Town Funds, with the Accountant's ledger accounts, and with the original bills and pay-rolls on file.

The cash books were footed and the cash balance on October 19, 1933, was verified by an actual count of the cash in the office and by a reconciliation of the bank balances with statements furnished by the banks of deposit.

The cash books should not be kept open after December 31, of any year for entering receipts, as it is contrary to Section 56, Chapter 44, General Laws.

The payments on account of maturing debt and interest

were proved with the amounts falling due and were compared with the cancelled securities on file.

The savings bank books and securities representing the investments of the several Trust Funds in the custody of the Town Treasurer were examined, the income and disbursements being verified.

The books and accounts of the Tax Collector were examined and checked in detail. The commitments of taxes and assessments were verified and compared with the Warrants for their collection, the recorded collections were checked with the payments to the Treasurer as shown by the Treasurer's and the Accountant's books, the recorded abatements were proved with the Assessor's records of abatements granted, and the taxes transferred to tax titles were compared with the Treasurer's and the Accountant's records of tax titles held by the Town. The outstanding accounts were listed and reconciled with the Accountant's ledger, being further verified by mailing notices to a number of persons whose names appeared on the books as owing money to the Town, the replies thereto indicating that the accounts, as listed, are correct.

The cash book balances on October 19, 1933, were verified by an actual count of the cash in the office and by a reconciliation of statements furnished by the banks of deposit.

Attention is again called to the failure of the Tax Collector to turn over all his receipts to the Town Treasurer weekly, as required by Section 2, Chapter 61, General Laws. The penalty for violation of this statute is provided in Section 102, Chapter 60, General Laws.

The records of tax titles held by the Town were examined and checked with the tax titles deeds on hand. The costs of sales and recording fees should be charged to the proper appropriation account instead of directly against the tax title account.

The records of Sewer, Street Betterment, and Sidewalk Assessments were examined and checked in detail. As there is no provision in the statutes for apportioning part of an assessment, it is recommended that when apportionments are made by the assessors, they be made for the full amount of the assessment and that the first apportionment be added to the current year's tax bill if the gross assessment is outstanding prior to April second. If the assessment is due subsequent to April second, the first apportionment should be added to the tax bill of the following year, as provided by Section 13, Chapter 80, General Laws.

The computation of the tax rate by the assessors was checked and it was noted that appropriations from available funds were not considered in the determination of the tax rate. In this connection attention is called to Section 23,

Chapter 59, General Laws, as amended by Chapter 428, Acts of 1931, which requires that the assessors raise all sums appropriated since the last preceding annual tax assessment, and which also provides that deductions on account of appropriations voted from available funds in the treasury may be made by the assessors only upon the approval of the Commissioner of Corporations and Taxation. All appropriations voted by the Town, whether they are to be raised by taxation or transferred from available funds in the treasury, should therefore be certified by the Town Clerk to the assessors, as required by Section 15-A, Chapter 41, General Laws.

The Town Clerk's records of Town Meeting votes were examined and the appropriations as recorded were checked to the accountant's ledger.

No vote was found fixing the compensation of the Tree Warden annually, as required by Section 108, Chapter 41, General Laws.

The Town Clerk's records of dog and of sporting licenses were examined, and the payments to the Town Treasurer and to the Division of Fisheries and Game were verified.

The surety bonds on file for the several town officials required by law to furnish such surety were examined and found to be in proper form.

The records of departmental accounts receivable, including Town Hall, Health, Highway, Public Welfare, Soldiers' Relief, and School Departments, of the Glover Memorial Hospital, and of the Water Department were examined and checked in detail. The charges were verified, the abatements were checked, the recorded collections were compared with the payments to the Treasurer, and the outstanding accounts were listed and reconciled with the Accountant's ledger.

The records of receipts from licenses and permits granted by the Selectmen, Police, Board of Health, and the Inspectors of Buildings, Wires, and Plumbing; and of receipts from the Sealer of Weights and Measures and the School and Library Departments were examined and checked, and the recorded collections being compared with the payments to the Treasurer as shown on the Treasurer's and the Accountant's books.

It was noted that the Sealer does not conform with the provisions of Section 34, Chapter 98, General Laws, requiring monthly payments to the Treasurer.

In addition to the departments and accounts mentioned, the records of all other departments in which money was collected for the Town or in which charges originated were examined and checked.

In addition to the balance sheet there are appended to this report, tables showing reconciliations of the Treasurer's and

the Collector's cash, summaries of the tax, assessment, and departmental accounts, together with schedules showing the Trust Fund transactions.

For the courtesies and co-operation extended by the various Town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

(Signed) EDWARD H. FENTON,
Chief Accountant.

The figures in conjunction with this report will be found on file in the office of the Town Clerk.

REPORT OF BY-LAW COMMITTEE

At the Special Town Meeting on January 16, 1933, the Town voted as follows:

"That the Moderator appoint a Committee of three to study the Town By-Laws relating to Town Meetings and Town Finance and Administration and to report their recommendations to the Annual Meeting in March, such Committee to be requested to cause such articles to be inserted in the Warrant for such Annual Meeting as may be necessary to enable that meeting to pass upon or adopt their recommendations, and that the recommendations of said Committee and the reasons therefor be included with the Annual Report of the Finance Committee when the same is sent to the voters."

The Moderator appointed Mr. E. Russell Greenhood, Mr. Charles E. Stanwood and Mr. Gilbert W. Cox.

After due consideration and investigation the Committee on By-Laws makes the following recommendations for changes and additions to the By-Laws of the Town of Needham.

The By-Laws of the Town of Needham as amended are hereby further amended by striking out Articles I and II and inserting in place thereof the following:

ARTICLE I TOWN MEETINGS

Section 1. The Annual Town Meeting for the election of officers and such other matters as may be voted on the official ballot, shall be held on the second Monday in March each year; and the Annual Town Meeting for the transaction of business shall be held on the third Monday in March of each year.

Sect. 2. All Town Meetings shall be notified and warned by posting attested copies of the warrant calling the same in not less than twenty public places in the Town at least seven days before the time of holding the meeting.

Sect. 3. In addition to the legal notification required by the foregoing section, the Town Clerk shall cause to be left at each dwelling house in the Town a copy of the warrant for every Town Meeting seven days at least before the time named in the warrant for holding said meeting. But the leaving of a copy as aforesaid shall constitute no part of the service of said warrant.

ARTICLE II

TOWN FINANCE AND ADMINISTRATION

Section 1. There shall be a Finance Committee consisting of nine registered voters, none of whom shall be Town officers, agents or employees. The Moderator shall at each Annual Town Meeting, appoint three members to serve for three years. Said committee shall choose its own chairman and secretary. Vacancies on said committee may be filled at any time by the Moderator. To this committee shall be referred all Articles of the Warrants calling for appropriations. The committee shall examine and study the budgets submitted by the various Town departments; shall from time to time throughout the fiscal year inquire into the expenditures and commitments of each department; shall immediately report to the Selectmen whenever the expenditures of any department are exceeding or are likely to exceed its appropriations.

The Committee shall have access to all facts, figures, records and other information relating to all Town departments, boards, committees or officers and the same shall be furnished forthwith by any department, board, committee, officer or employee whenever so requested by the Committee.

The Committee shall report in print or otherwise to all Town Meetings. For the information of voters the report to the Annual Town Meeting shall be in print, together with the motion substantially in the form to be proposed in connection with each article in the warrant of said meeting. In its motion or motions the Finance Committee shall divide the proposed appropriation for each department into a sufficient number of items to separate the major classifications of expenditures:

Sect 2. The Selectmen, all departments, boards, committees or officers authorized by law to expend money shall furnish to the Town Accountant and the Finance Committee, on or before the twenty-first day of December of each year, detailed estimates of the amounts necessary for the proper maintenance and administration of the several departments under their jurisdiction for the ensuing year. Detailed estimates shall be itemized satisfactorily to the Finance Committee.

Sect. 3. The Town Treasurer shall prosecute proceedings under the provisions of Chapter 60 of the General Laws for the foreclosure of the right to redeem lands purchased, taken or held by the Town for the non-payment of taxes.

Sect. 4. The Town Treasurer shall have the custody, management and sale of all lands held by the Town under a tax collector's deed or a taking of land for taxes after the title of the Town has become absolute by the foreclosure of

the right of redemption according to law. And he is authorized and empowered with the approval of the Selectmen, in the name and on behalf of the Town to sell and convey such lands after publicly advertising such sale and to execute, acknowledge and deliver proper deeds for that purpose.

Sect. 5. The Selectmen shall act as Town agents, and have authority as agents and officers of the Town to appoint and employ a Town counsel, who shall act as attorney and counsel for the Town and the various officers and boards thereof, and to fix his compensation, to institute and prosecute suits in the name of the Town, to defend suits brought against the Town, and to compromise and settle suits and claims, unless otherwise ordered by special vote of the Town.

Sect. 6. No elected Town officer shall hold a salaried position under the board of which he is a member. No contract for materials or property of any kind to an amount exceeding one hundred dollars in any one year, shall be made in behalf of the Town by any such board with any of its members. Provided, however, that such contract may be made with any person who is the lowest bidder in an open competition wherein written bids are called for.

Sect. 7. Whenever mechanical or other work is required to be done for the Town at a cost amounting to \$500 or more for one item, the same shall be publicly advertised in a local newspaper for proposals, which shall be received in a sealed envelope to be opened at a specified time, and a contract for the performance of the work shall be awarded to the lowest responsible bidder; provided that any and all proposals may be rejected whenever the interests of the Town so require. Whenever any extra labor or materials are required under any such contract and the cost therefor shall exceed \$200 such extra labor or materials shall be publicly advertised in the manner aforesaid.

Sect. 8. It shall be the duty of all officers and boards of the Town, at or before the time when they decide upon action which will involve opening any street or way, except in case of emergency and as long before such opening as is practicable, to notify the Board of Selectmen in writing of such contemplated action. And it shall be the duty of the Selectmen when they decide to rebuild or extensively repair any street or way, and as long before such rebuilding or repair as is practicable to give notice in writing of such proposed action to the Board of Water Commissioners, and to such other officers of the Town, if any, as may be likely to have occasion to open such ways or streets.

Sect. 9. Plans and descriptions of all common sewers belonging to the Town, with a true record of the charges of

making and repairing said sewers and all assessments therefor, shall be kept in the office of the Sewer Department, under the care and in the custody of the Sewer Commissioners.

Sect. 10. All buildings on or near the line of public or private ways, shall be assigned a number or numbers by the Board of Selectmen who shall assign odd numbers for one side of a way and even numbers for the opposite side thereof. All ways running in a generally northerly and southerly direction shall be numbered from north to south and all ways running in a generally easterly and westerly direction shall be numbered from east to west. Said assigned numbers, which shall not be less than $2\frac{1}{2}$ inches high with $\frac{1}{2}$ inch stroke, shall be placed in a conspicuous place on said building or buildings by the owner or occupant thereof within thirty days from the time when notice is given by said board to the owner or occupant of the number or numbers assigned to said building or buildings.

Sect. 11. The Selectmen annually in April shall appoint a Town Engineer at a fixed salary, who shall have authority to appoint such assistants as the Town engineering work requires, subject to the approval of the Selectmen. The Town Engineer shall have charge of all Town engineering. The Town Engineer, shall except as provided in Article II, Section 9, have charge of and shall preserve, arrange and index, so as to be readily accessible to the public, all plans, surveys, field notes, records, documents and inventories connected with the Engineering Department of the Town. He shall keep accurate records showing in detail the operation and cost of his department, and a fair and equal distribution of such cost among the several Town departments in proportion to the amount of work done for each. The Town Engineer shall each year submit to the Selectmen in time for publication in the Annual Town Report a statement showing in detail the work of the Engineering Department for the year and the names and compensation of all persons employed. The Selectmen shall have power to remove the Town Engineer at any time and appoint his successor.

REASONS FOR RECOMMENDATIONS

Article I, Section 1 is the same as present Article I, Section 1.

Article I, Section 2 is the same as present Article I, Section 2.

Article I, Section 3 has been changed to comply with present General Laws, Chapter 39, Section 10.

Article II, Section 1. When the Town of Needham voted to establish a Finance Committee it was more or less an

experiment and at the time the Town was reluctant to extend too broad powers to the Finance Committee. At the present time there seems to be little doubt of the tremendous value of the Finance Committee in checking up on the expenditures of the Town and in acquainting the voters of the Town with the financial situation of the Town itself and each department. The Finance Committee has become the voters' representative in Town finance.

In order to more clearly define the exact function of the Finance Committee and to enable it to be of greater service to the Town and to require the Finance Committee to furnish the voters with more detailed information Article II, Section 1 has been amended and *Section 2* has been added.

Section 3. This section is recommended in order to define the powers of the Town Treasurer as recently defined by an act of the legislature in Chapter 126 of the Acts of 1927.

Section 4. This section is the same as present Section 3 of Article II.

Section 5. This section is the same as present Section 4 of Article II.

Section 6. This section is the same as present Section 5 of Article II.

Section 7. This section is recommended for two reasons,

1. To give the townspeople notice of what work is being done in the Town; and
2. To notify all possible contractors who might be interested in bidding on the work, so that the Town may obtain the very lowest responsible bid for all work to be undertaken.

Section 8. This section is the same as present Section 7.

Section 9. This section is the same as a by-law passed by the Town and approved by the Attorney General, February 20, 1928.

Section 10. This section is the same as a by-law passed by the Town and approved by the Attorney General, November 12, 1930.

Section 11. This section is the same as a by-law passed by the Town and approved by the Attorney General, April 24, 1929.

REPORT OF THE WATER COMMISSIONERS

To the Inhabitants of the Town of Needham, Massachusetts:

We submit herewith the forty-fourth annual report of the Water Department for the year ending December 31, 1933.

At the annual Town Meeting, Benjamin Mills, Jr. was re-elected Water Commissioner for a term of three years.

The board organized by electing Benjamin Mills, Jr., chairman, and Philip A. Rand, secretary. George A. Adams was appointed superintendent and Roger G. Oakman, assistant superintendent.

GEORGE A. ADAMS

On September 5, 1933, George A. Adams, who had been associated with the Needham Water Department since its inception in 1890, first as Commissioner and then for forty-two years as Superintendent, passed to his just reward.

Mr. Adams had been so closely associated with Town affairs and had such a legion of friends that no mere words of your Commissioners can add greater tribute to his achievements.

Of indomitable spirit and inherent integrity he was, above all others, most responsible for the planned growth of the Department.

The Water Department has, indeed, lost a wise leader and the Town a loyal friend.

Extensions of Mains

The following extensions were made in 1933:—

Brookside Road, Mayflower Road, Stockdale Road, Glendale Road, Nichols Road and Harris Avenue. A main was extended across Great Plain Avenue to supply Pilgrim Road, also, due to the rebuilding of Dedham Avenue, a main was extended across Dedham Avenue to supply the Bradford Street circuit.

Pipe smaller than four-inch was laid in Hillcrest Road and Coulton Park.

Water Rates

As authorized by vote of the Town in 1924.

The minimum advance water rate on each service shall be \$10 per annum, from April 15 to April 15, and pays for 2,500 cubic feet of water if used between these dates.

Water used in excess of 2,500 cubic feet and under 202,500 cubic feet will be charged at the rate of twenty cents per 100 cubic feet.

Water used in excess of 202,500 cubic feet will be charged at the rate of eleven cents per 100 cubic feet.

Bills for the minimum advance water rate of ten dollars shall be rendered April 15, and will include the charges for excess, water for the year ending on that date, except if the water used between April 15 and October 15 in the same year exceeds 2,500 cubic feet a bill for such excess shall be rendered and payable October 15, or if the meter readings indicate that a large amount of water is being used on any service the bills shall be rendered and payable monthly.

Long Term Bonds

Bonds to the amount of nine thousand dollars have matured and been paid during the year.

Increasing and Protecting the Water Supply

During the year 1933 the plans for improvement inaugurated the previous year were carried to a completion and the

existing physical property of the Water Department is now in excellent condition.

A new 800 GPM electric motor driven pump has been installed at the Dedham Avenue Pumping Station. In conjunction with this pump, new piping, recording flow meters and electrical equipment have been established in permanent operation. The building has been painted throughout, new floors constructed and that part of the building which was originally used for a coal pocket has been converted into a garage and meter room. Formerly the meter room was located in the Town Hall but with the improvements at the Dedham Avenue Station the meter testing equipment was moved to the new quarters and the department completely modernized. The garage accommodates the two department trucks and these are now regularly housed at this point.

A new boiler and heating equipment has been installed at this plant and the power boilers are held in reserve for steam pump operation only. This has effected definite economies.

With the new electric pumping equipment we have found it possible to operate with but one operating engineer.

The major part of the new construction at the Dedham Avenue Station has been accomplished with unemployed labor and our Department, working in conjunction with the Unemployment Committee has found it possible to effect decided savings in construction costs.

All of the new construction, both during 1932 and 1933, wherein both the Dedham Avenue and Glancy Pumping Stations have been largely rebuilt and modernized, new force mains installed and various other miscellaneous operating conditions improved, has been completely paid for out of the earnings of the Department and no financial obligations have been incurred. Further the tax rate of the town has not been burdened with these expenditures.

This is the last official yearly report of the Board of Water Commissioners for in March 1934 the Board is to be abolished and the Water Department will become a part of the newly created Public Works Department. In consequence thereof we, the Commissioners, desire to offer certain recommendations for the future operation of the Department.

First—We recommend that at a very early date steps be taken to determine the proper location for a new well and that the same be constructed with electric pumping equipment, at either the Glancy Farm or on the Dedham Avenue property. The construction of this well should be of the

gravel packed type similar to the recommendations of the "Committee for the Study of Water Supply Conditions in Needham." The daily capacity should not be less than 500,000 gallons and should preferably be 1,000,000 gallons. With this equipment the Town can be assured of an adequate water supply for at least the next fifteen years based on a normal growth.

Second—Sale of the property at the corner of Harris Avenue and Great Plain Avenue known as the Birds Hill Spring property, the proceeds to be used to defray a portion of the expense of the new well recommended. This property has no value as water shed and could be advantageously used as building lots thereby increasing the taxable wealth of the town.

Third—The South Street Station should be abandoned except for the low head pump. This station has outlived its usefulness and the equipment should be sold and the receipts used to partially defray the expenses of the new well. A right-of-way from South Street to the river should be maintained, this to be approximately fifty feet wide and a small house to accommodate the low head pump should be constructed. The remaining property can then be disposed of or used for any other purpose the Town may elect.

Fourth—The standpipes should be painted, both inside and outside and in addition the interiors should be thoroughly scraped before the paint is applied. When funds are available a steel cover should be installed over the top of each standpipe.

Fifth—Numerous dead-end mains through the town should be eliminated as quickly as possible.

We wish to thank all the loyal employees of the Water Department for their co-operation during the period of reconstruction. They have given unstintingly of their time and effort, often without recompense, during all hours of the day and night.

Respectfully submitted,

BENJAMIN MILLS, JR.,
WILLIAM W. GALLAGHER,
PHILIP A. RAND,
Water Commissioners.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Needham:

In accordance with custom the School Committee herewith submits its annual report.

During the year 1933 your Committee has been faced with a difficult problem.

To keep within the appropriation made at the annual Town Meeting it became necessary for the Committee not only to make every possible economy but to order the elimination of Kindergartens and certain transportation.

The action of the Town at a special meeting in September obviated the necessity of the proposed eliminations. This act on the part of the townspeople was an indication to the Committee that the standards should be maintained.

We call your attention to the report of the Principal of the Senior High School and sincerely hope that the enviable standing of our system will be maintained.

Your Committee has taken advantage of the opportunity offered through the F. E. R. A. and is starting the following projects about February 1st.

1. Classes in physical education for women.
 - (a) Corrective posture with individual school children.
2. Home improvement which will include child care, dietetics, and home sanitation.
3. Adult alien education.

During the year the Committee has been faced with a greater number of requests than ever for the use of our school buildings.

The Town Treasurer has been reimbursed with a sum sufficient to cover the added cost of operation. The system of accounting does not permit this to be credited to the school department. If this practice is to be continued it should be approved as an additional item in the budget and not held chargeable against the cost of education in the Town of Needham.

The Committee urges every citizen of Needham to consider the vital position of Education in our social order and will at all times welcome constructive suggestions.

Respectfully submitted,

ROY E. COLE, *Chairman*,
IRVING H. COWDREY,
MAURICE V. BROWN,
EDWARD SEAVER,
MARION G. HALL,
ARTHUR S. HAMILTON,

HOW THE 1933 SCHOOL DOLLAR WAS SPENT

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of Needham:

I am submitting for your consideration my annual report; this being the forty-first in the series of annual written reports regarding the schools of Needham.

Accompanying my report are reports from the Principal of the Senior High School, Principal of the Junior High School, School Physicians and School Nurse, the Household Arts, Physical Education, and Manual Training Departments.

The school department has co-operated throughout the year with the Welfare Department, the Unemployment Bureau, the Red Cross, the C. W. A., and the F. E. R. A., and all other agencies for the general welfare both local and federal.

Membership

The average membership for the month of December, 1933, is 83 over that of the same month last year. When allowance is made for the loss of membership due to absence for ten consecutive days on account of the large number of cases of mumps the increase in membership for the year is still larger.

Although the increase in number of pupils is normal for Needham the schools have been carried on with a decreased number of teachers. This has been accomplished by curtailing work in the Physical Education, Household Arts, and Manual Training Departments and by increasing the number of pupils per teacher in all the schools. Some teacher programs are unreasonably heavy in the Senior and Junior High Schools and the number of pupils in the grades has reached 40 in some rooms which it would seem is as large as should be allowed. The number of teachers must be increased in the fall unless we are willing to acknowledge that we are accepting lower standards for our schools. If our present lack of teaching service is continued longer, the results are sure to show in the accomplishment of pupils.

Teachers

We have lost through resignations some excellent teachers during the year. The positions that have been filled are occupied by teachers of training and experience, well qualified to maintain a high standard of work. Our teachers are efficient and faithful and it is a great pleasure to be associated with such a group working in the interests of the pupils.

Repairs

The amount spent for this item has been reduced but considerable has been accomplished. \$606.34 was spent in 1933 for materials furnished men employed under the C. W. A. Besides the long list of ordinary repairs, the Eliot School building was re-shingled, staircases and landings were repaired at the Old High, tables were refinished at the Senior High, and outside painting was done at the Old High and Senior High Schools.

Financial

Although our budget was reduced materially all bills for 1933 have been paid with the exception of the telephone and electric light bills and a few small bills which we were unable to get before the books were closed for the year. There is a balance in the account sufficient to provide for these bills when rendered. The economy has been accomplished by —

- (a) Reducing salaries.
- (b) Reducing the number of teachers by leaving vacancies unfilled.
- (c) Reducing the amount of books and supplies for pupils.
- (d) Postponing the purchase of new equipment.
- (e) Curtailing repairs.

The cost per pupil in average membership has been reduced from \$96.27 to \$82.10. Of this amount the Town has paid \$72.87. The tentative budget for 1934 provides for a change in salaries from a reduction of $13\frac{1}{2}\%$ to a reduction of 10% from the salary scale, for an addition of three teachers, for a small increase in books and supplies, and an increase in the amount for fuel. In view of the increased number of pupils this seems necessary. The amount necessary for repairs will be dependent to some extent upon what work is to be done under the C. W. A.

It would seem at the present time that great care should be taken not to take away from the children those things which are so essential if they are to have a chance equal to that of their older brothers and sisters. It is a time for a careful examination of our school system that we may not lose our sense of relative values.

Through our own teaching force we are making a careful study of the curriculum with the idea of making changes wherever desirable and economies wherever possible.

"Real economies are not merely money-saving devices; rather they are means of insuring adequate educational returns for moneys expended."

In the preparation of statistics regarding the schools, it is not fair to charge to the school department the expense of buildings and grounds over which this department has had no control; whether wise or not, at least some of the expenditure was made by the Town although advised by the School Committee, then in office, that the expenditure was unsound and a waste of public funds. The children should not be compelled to suffer for these mistakes.

Education Week

Education week was observed this year during the week of November 6th to 12th.

Parents were invited to visit the different schools as follows:

Tuesday: Stephen Palmer, Harris and Eliot Schools.

Wednesday: William Carter, Avery, Old High, and Senior High schools.

Thursday: Eliot, Dwight, Riverside and Junior High Schools.

The commander of the American Legion was present and spoke at the assemblies of the Senior and Junior High Schools during this week.

The total number of parents who visited the schools during this week was 1,139.

Needham Parent-Teacher Association

"The object of this Association shall be to foster a closer sympathy and co-operation between the home and the school in the Town of Needham; and to promote the educational and social welfare of the community."

The following sections of annual reports will be of interest:

Physical Education

In the Physical Education Department of the Needham Public Schools we are aiming higher than health, victorious teams, big muscles, or profuse perspiration. We are planning the physical education work so as to set a standard of living that will surpass the average and the commonplace. We have in our aim some of the healthy virtues of courage, endurance, strength, and also the natural attributes of play, such as imagination, joyousness, and pride.

Every pupil, excepting kindergarten pupils, in so far as he or she is physically fit and capable, which fitness is determined by the school doctor, takes part in physical education classes

at least once a week in the grades, and twice a week in the junior and senior high schools.

We aim to have every boy and girl acquire through our course of physical education first; normal growth and organic development; second, development of each pupil through activities which appeal to his deeper instincts and emotions (games, athletic contests) of those fundamental traits of character which have a direct relation to his fellows; third, development of those personal traits which have an indirect effect upon one's associates; and fourth, to create an intelligent and healthful interest in physical activity that will carry over into adult life.

The Physical Education Department holds demonstrations of its work every year in the Junior and Senior High Schools. These mass exhibitions are demonstrated for the benefit of the public and it is very gratifying to see the numbers that turn out for them.

The following is a list of high school sports and coaches:

Baseball	Mr. Claxton

Winter Season

Hockey	Mr. Small
Basketball, girls	Miss Rowe
Basketball, boys	Mr. Claxton
Wrestling	Mr. Claxton

Fall Season

Field Hockey, girls	Miss Rowe
Football ..	Mr. Claxton and Mr. Small

Interclass games are conducted each season in different sports. A few of our teams were quite successful this past year, namely, hockey, basketball, and football.

The spirit was exceptionally good in football this year. There were more boys in uniform than ever before in the history of the school. The season closed with three full teams on the field. The boys played a ten-game schedule and lost only three games never being scored upon more than once in each of these games. The boys are to be congratulated upon their season.

PHILIP H. CLAXTON,
Physical Director.

Manual Arts

There has been a very noticeable increase this year in the number of boys remaining in school, due in a large measure to economic conditions. In former years the number of pupils leaving to accept work has had a decided tendency to decrease the original number enrolled in this department. As there was no work available, I feel that the department has provided a very important function in aiding the type of boy who, if he were not in school receiving careful supervision, might become a very difficult community problem. The schools have for the last few years been called upon to absorb students of this type who under ordinary conditions could find work; and quite naturally they are for the most part the boys who elect Manual Arts in school.

The department has carried out successfully its prescribed course of study. The boys have constructed a wide variety of furniture, receiving instruction in all phases of the work from the planning through to the actual finishing of the various projects.

ALFRED H. JOHNSON,
Instructor of Manual Arts.

Domestic Science

Approximately three hundred students are served daily in our Cafeteria which offers a well balanced menu at a low cost. All menus are planned with the interest of the pupil wholly at heart. Our aim is to offer wholesome, nutritious, appetizing food which will make it healthful for the pupil to purchase lunch at schools. Foods are purchased at as low a cost as possible to obtain good quality and freshness.

Every day our menu offers soup, hot dish, salad, sandwiches, fruit, ice cream, milk, and cocoa, if desired. In many cases pupils who bring lunches from home purchase milk, soup, salad, or ice cream to eat with them.

Typical Daily Menu

Vegetable Soup	\$0.05
Meat Pie10
Sea Food Salad10
Lettuce Sandwich05
Pickle Spread Sandwich05
Bread and Butter Sandwich05
Fresh Fruit05
Milk05
Cocoa05
Ice Cream05
Cookies05

Our Cafeteria is self-supporting and has never been operated with the thought in mind of accumulating a profit. It has been our aim to give our students full value for their money. The service of one woman is employed and the balance of help required is furnished by our students who receive a twenty-cent luncheon in return.

It has been my pleasure for the last nine years to have supervision of the Senior High School Cafeteria. I have enjoyed my work and appreciated the co-operation of my superiors and those who worked with the preparation of the food in what has been reported to be one of the finest High School Cafeterias in New England.

FLORENCE DUDLEY,
Instructor of Domestic Science.

Recommendations

Although there are many improvements which can be made to this or any other school system, I am refraining from making recommendations which would necessitate additional expense upon buildings except when absolutely necessary for the health and safety of pupils. The safety of children going to and from school is already under careful study by a sub-committee of your committee. An examination of the curriculum is being undertaken by committees of teachers that improvements may be made wherever possible.

These reports should receive careful analysis at the hands of your committee.

I am recommending that steps be taken to take advantage of the opportunity offered by the Federal Government to secure an addition to the Junior High School. An addition must be constructed in the near future and unless the town takes advantage of the Federal Plan, the necessity will soon be upon us of asking the taxpayers to assume the whole expense.

For the sincere effort on the part of the teachers and other employees in the department to render the best service possible for the benefit of the pupils, I wish to express my appreciation.

Sincerely yours,

JOHN C. DAVIS,
Superintendent.

REPORT OF PRINCIPAL OF SENIOR HIGH SCHOOL

January 2, 1934.

Mr. John C. Davis, Superintendent of Schools,
Needham, Massachusetts.

Dear Sir: — I herewith submit my seventh annual report as Principal of the Needham Senior High School.

On Friday evening, June 23rd, a large and remarkably fine class of 129 members graduated from the Needham Senior High School. Not only did it maintain a high standard of scholarship in addition to its many achievements in the field of extra curricula activities, but it also left behind a splendid record of attendance. The following members were neither absent nor tardy for the period of time indicated below:

Seven years — Frederick Broadley, Carroll Cobb, and Irene Knowles.

Four years — Conrad Fisher, Evangeline Tomaino, and Irma Toone.

Three years — Karl Richards, Thelma Silsby, Regis Slade, Jessie Stewart.

Two years — Eleanor Casey, Barbara Eldridge, Betty Gilbert, David Hall, Edith Kershaw.

One year — Edmund Hanson, Bertram Nickerson, Dorothy Roberts, George Niden, Myrtle Strong, Clare Sturtevant, Emma Swagher, Robert Proctor, Catherine Vara, and Alyce Warne.

The graduating exercises were of a very high order. The program was as follows:

League of Nations Association Prize presented by Mrs. Lewis Jerome Johnson, Chairman of the Educational Committee of that Association, to Royal K. Abbott, Jr., whose paper in the League of Nations Contest was regarded by examiners as one of the three outstanding papers submitted by high school pupils of this State.

Our school publication, *The Advocate*, which offers our pupils splendid opportunities to express themselves in art, prose and poetry, as well as a fine chance to get worthwhile business experience, has been of such a high degree of excellence that for two successive years it has been awarded second place in its class, by the Columbia Scholastic Press Association.

Enrollment

The total enrollment to date is 491, divided as follows: Post-Graduates, 22, Seniors, 131, Juniors, 152, Sophomores, 186.

The total enrollment at this time last year was 492. Twenty-two pupils have left school this year as against 25 last year, so that the actual present membership shows 459 for 1933-34 as compared with 467 for 1932-33.

Of the 22 who have left school (which includes 7 post-graduates) 8 have moved out of town, 12 are working and 2 are at home.

Of the 175 graduates of last year's ninth grade, 163 entered the Needham Senior High School, 4 have moved away, one went to another school, 4 are working and 3 are at home.

Our post-graduates, as a whole, have made a fine record this year. They have been very helpful in many ways. It has been impossible to offer them anything beyond the subjects now listed in our Program of Studies, because such a step would involve not only extra expense, but also the question of educational policy relative to scholastic work of Junior College Grade. For the last three or four years the question of the post-graduate has been a very important one among educators. Much time and thought have been given to the subject with the hope that in the near future a plan might be evolved which would be worthwhile educationally to the post-graduate and acceptable to progressive communities.

School Classification

The Needham Senior High School is rated as a Class A school by the State Department of Education, it is a member of the New England College Entrance Certificate Board, and because of the fine scholastic record of its graduates in college it has been placed on Dartmouth's "Selected List" of secondary schools.

College Entrance Board Examinations

Our candidates in this field last June were very successful. Several passed the examinations with honors, particularly in science and mathematics.

Graduates of the Class of 1933 entered the following colleges in September: Dartmouth, Boston University, Mt. Holyoke, University of Maine, Massachusetts State, Harvard and Yale.

Our Graduates in College

Our graduates who have gone on to college during the last five years have demonstrated beyond a doubt that our school fosters and develops qualities of leadership. The following facts furnish ample proof of that statement:

Athletics — Outstanding athletes in Boston College, Northeastern University, Massachusetts State, Massachusetts Institute of Technology, and Tufts, respectively.

Class Activities — Class officers and leaders of extra-curricular activities in the following colleges: Massachusetts State, Mt. Holyoke, Simmons and Wheaton.

Scholarship — Students on the Honor Roll or Dean's List at Dartmouth, Massachusetts Institute of Technology, Smith, and Wellesley, and five Phi Beta Kappa students (the highest scholastic honor that a college can bestow) during the last two years in Boston University, Dartmouth, Mt. Holyoke, Wellesley and Wheaton, respectively.

The facts listed above speak for themselves. We have plenty of reason to feel proud of the achievements of our young people in college circles.

Home Study

It is still necessary for the average pupil to put in at least two hours per day in conscientious study at home, free from interruptions and distracting influences, if he is to succeed in his school work. This is especially true of all who aspire to go to college.

A study of this subject in the best secondary schools of the State proves without a doubt, that our requirements in this matter are in accord with theirs. As further evidence to substantiate the above statement I quote verbatim from some of their programs of study.

1. "Home Study. A pupil cannot maintain satisfactory standing without from two to three hours study at home per day. It is therefore important that this amount of home study should be insisted upon by the parents and be free from interruption."

2. "For the satisfactory completion of the work required for a diploma at least two hours of daily home study are necessary. Regular attendance is also very important. Most of the failures in high school are due to lack of home study, and to irregular attendance.

3. "To succeed in their school work, High School pupils must do much of their studying at home. Not less than two hours a day should be given to this home study. Parents should see that pupils observe these hours regularly and free from interruptions. A large majority of the failures result from the lack of sufficient home preparation.

" . . . Entertainments, social engagements and outside interests in general should be so limited and supervised that there occurs no interference with complete preparation for daily work. Pupils who do well in High School devote Monday, Tuesday, Wednesday and Thursday evenings to their school work without exception."

If one expects to master problems either in college or in the business world he must plan to give much time and thought to them. Then a well-developed habit of home study will prove its worth. Consequently, because of the benefits derived therefrom, I feel that it is our duty to insist upon regular, systematic home study.

Failures

A recent study made by one of our suburban school superintendents on the subject of failures in thirty-two high

schools, comparable in many respects to our own, reveals the following facts:

1. Of 1,971 subject enrollments in our school, 113, or 5.7% were failures.

2. The following high schools had a lower per cent of failures than Needham: Bridgewater, Greenfield, Palmer, Millbury, Dartmouth, Southbridge, and Lawrence.

3. The following high schools had a higher per cent of failures than Needham: Framingham, Andover, Lexington, Norwood, Stoneham, Amesbury, Northbridge, Athol, Methuen, Whitman, Concord, Middleboro, Weymouth, West Springfield, Plymouth, Marblehead, Wellesley, Ludlow, Braintree, Easthampton, Agawam, Hudson, North Andover and Wrentham.

4. The lowest per cent of failures was about 1%.

5. The highest per cent of failures was 24%.

6. All of the schools in our immediate vicinity have a higher per cent of failures than we have.

It is greatly to our credit that we have been able to keep the number of failures down and at the same time maintain a high record of scholastic achievement. I hope that we shall be able to continue the good work but I have serious doubts about it. Why? Because with larger classes and fewer teachers, and with practically everyone, the qualified and the unqualified, entering our school, something will have to suffer — either school standards or individuals, or perhaps both. Time alone will tell the story.

Faculty

The faculty, which numbers two less than last year (Miss Steele and Miss Guthrie having been transferred to the Junior High School), is doing a fine piece of work. I thank the teachers for their loyalty to duty and for service efficiently rendered.

Both the faculty and the school suffered a real loss when Miss Florence Dudley, our efficient teacher of Home Economics for a period of ten years, resigned to accept a more lucrative position with a well-established business concern in Brookline. She took with her our sincere good wishes for success and happiness in her new work.

In closing this report, I wish to thank you, Mr. Davis, the members of the School Committee, and all others who have assisted me in my work as Principal of the Needham Senior High School.

Respectfully submitted,

WILLIAM F. POLLARD,
Principal.

REPORT OF PRINCIPAL OF JUNIOR HIGH SCHOOL

Mr. John C. Davis, Superintendent of Schools,
Needham, Massachusetts.

My dear Mr. Davis:—Herewith I present the fourth annual report of the Junior High School. The program of the school in content remains the same as during the past two years. In the fall a number of reassignments were necessary due to economy measures and two transfers from the Senior High faculty to our group were made.

Limitation of space prompts me to omit usual detail matter and call attention to certain developing factors in regard to the program of the school. Depression conditions and the law relative to longer retention in school upon the part of boys and girls are increasing yearly the size of the non-academic group.

Already we have curtailed Home Economics and Manual Training in Grade Seven. Mr. Blanchard is able under this arrangement to handle all of the Manual Training for the three grades. Next year, however, the Ninth Grade will have a very large group electing Manual Training and a larger election of Home Economics also. Conditions make this self-evident. Four periods per day in these courses will be consumed by the last year pupils, leaving but three periods per day to be divided between all the students of Grade Seven and Eight in which Manual Training and Home Economics are required work. An assistant for the boys' work will be as necessary as for the girls' work at present.

The English department will need re-organizing in order that the non-college group may receive a course better suited to their actual needs than the one at present provided. No argument is necessary to prove that the time has arrived for a more extended differentiation in both Grades Eight and Nine.

The General Science course in Grades Seven and Eight could be enlarged in content to advantage and in the Seventh Grade by at least one period per week. Any one change naturally affects other places in a school program and none of these essential matters could be accomplished without addition to the present teaching staff.

Although one and all we comprehend the necessity of curtailment whenever and wherever possible, yet the fact must be faced in this community as in others, that the largest increase in annual membership gain due to age and conditions will be found in the Junior group. Here the practical and the cultural courses must be continued, if anywhere, as

the student is between the age of compulsion and selection in his work, and also, at the period of mental and physical growth encountered nowhere else in the educational system.

The teachers during the past year have been loyal to their tasks and faithful to the trust of teaching youth. I wish space permitted a fuller account of teacher stewardship but I feel an honest "well done" may indeed be said. Support of our efforts from whatever source has been sincerely appreciated.

Most respectfully submitted,

CLARENCE B. WASHBURN,
Principal.

WILLIAM G. MOSELEY

Bequests to Town of Needham

Item No. 4 of the will of William G. Moseley reads as follows:

“To the Glover Memorial Hospital of Needham, I give the sum of Five Thousand (\$5,000.00) Dollars to establish a free bed for the worthy poor to be known as the ‘Mary E. Moseley’ bed.”

Item No. 5a of the will of William G. Moseley reads as follows:

“To the Town of Needham, I give the sum of Five Thousand (\$5,000.00) Dollars, for the following use:—

To establish a fund to be known as the ‘William G. Moseley Scholarship Fund,’ the same to be invested and the income from same to be paid over to the Chairman of the School Committee, annually, same to be awarded to the member of the graduating class of the Needham High School, intending to continue work at a higher institution of learning, and whose record at

the Needham High School shows constant and consistent high marks in attendance, deportment, and scholarship along so-called cultural lines. The Chairman of the School Committee, the Superintendent of Schools, and the Principal of the High School to determine who is entitled to the award."

There has been received during the year 1933 by the Town of Needham Three Thousand (\$3,000.00) Dollars on each of the above bequests and the money has been invested by the Commissioners of Trust Funds and the income available for the purpose designated.

TOWN OF NEEDHAM

REPORT

OF THE

FINANCE COMMITTEE

TO THE TOWN

AT THE

ANNUAL MEETING, MARCH 20, 1933

ELECTION, MARCH 13

BUSINESS MEETING, MARCH 20, AT 7.30 O'CLOCK

NEWTON
GARDEN CITY PRESS, INC.
1933

REPORT OF FINANCE COMMITTEE

To the Voters of the Town of Needham:

The Finance Committee herewith submits its report and recommendations for the annual budget of the Town for the year 1933, and on those articles in the Warrant for the annual meeting for 1933 that may call for special appropriations.

The Committee began its study of the budget for 1933 much earlier than has been the custom. We have held twenty-six regular meetings and in addition have held many special conferences with the Department Heads and special committees.

Though the powers of the Finance Committee are very limited in the matter of requiring budget figures, advance reports, etc., from the Department Heads or the Town officials, they have this year been very helpful in co-operating with us. The Selectmen also have been very diligent in trying to find ways to economize in the various departments that come under their jurisdiction, and their co-operation has been greatly appreciated.

When the Town elects a board of officers or appoints a committee for special work, we should remember that those officials and committees are in direct charge of such work and soon become acquainted with the laws pertaining to their office and the duties incumbent thereon, and criticism of their work should not be made except by those who know something about the laws governing, and the duties in, the office. Many well-intentioned persons have brought to us words of criticism of the different departments, but in many instances this criticism has been withdrawn when they have found that the matters of which they complained were wholly governed by state laws or previous votes of the Town.

No comment is made on the financial reports of the various departments for the year 1932, but the attention of the voters is called to the work of the Welfare Department and the large deficiency therein which will have to be made up in the tax rate of this year. We believe that some other method of handling this relief work must be found at once as it is very apparent to all that such aid will have to be continued for some time.

An increase in the membership of the Welfare Board together with the employment of a competent agent will undoubtedly help remedy the situation, and we recommend both changes.

The reduced appropriations last year brought a reduction in the tax rate of the Town of over \$2.00 per \$1,000 and there seems very little opportunity to make further

reductions this year unless the Town is ready to discontinue some of its departments or certain activities. If we are ready for any such changes the citizens should signify by vote just which ones they wish changed. The budget reductions we have prepared will in our estimation further reduce the tax rate to about \$29.00 per \$1,000. State and County taxes or further decrease in income from outside sources may change this figure a little.

We have an assessed valuation of over \$23,000,000 and the Town property is valued at nearly \$2,000,000. The annual cost of caring for this property, such as repairs, insurance and janitor service, is considerable, and the property of the Town should not be allowed to deteriorate.

Welfare work, health work, person and property protection as well as education of our children must be continued. About \$20.00 of our tax rate is required each year for these items and for the various operating expenses. About \$10.00 or one-third of our tax rate is required to pay for those items beyond the control of any department or of the voters. They are made of principal and interest payments on sinking funds, notes and State and County taxes. Any saving must be made in operating costs. We might add that approximately \$5.00 of our present tax rate can be directly charged to the large expenditures for new buildings recently voted by the citizens. At that time the voters seemed as anxious to spend money as they are now to save it. There is always a day of reckoning for either unwise expenditures or unwise economy and the Finance Committee has endeavored to avoid both extremes.

There will be a saving of over \$20,000 in our Street Department appropriations for this year due in a large extent to the permanent construction work that has heretofore been done and the very efficient care and attention given to our streets during the past few years. This seems to be an instance where efficient service well paid for, has resulted in real economy.

The only field that now seems to be open for further extensive saving is in the matter of salary and wages. There is a great deal of agitation and discussion going on concerning this question and a great divergence of opinion as to the best method of handling the situation. On one side are those many of them taxpayers giving their time and services in the carrying on of the work of the Town and, in their opinion, receiving only reasonable pay. On the other side are those, also taxpayers, who consider that drastic reductions should be made in accordance with changed conditions.

The officials and employees have endeavored to meet this situation by offering a voluntary contribution of ten per cent of their earnings during the entire year of 1933 to be used in accordance with a vote of the Town. In trying to find the

best method of bringing about a reduction in the salary and wage cost without impairing efficiency we have come to the conclusion that any form of percentage reduction that applies equally to all is not the best method. We believe a much more economical and efficient way of handling the question would be to have a revision of all salaries and wages made by a committee, having the necessary authority, who should report to the Town before July 1, 1933. The voluntary contribution planned by the officials and employees will save about \$35,000 and we feel a further saving may be made following a revision or consolidation of the work of such a committee.

We are, therefore, recommending that the voters accept the ten per cent voluntary contribution plan and the appointment of a committee having authority to investigate the work of all the departments in the Town, and the wages and salaries paid, and report to the Town not later than July 1, 1933. This Committee to recommend ways and means by which a further saving in costs can be made. We have no authority to do this work at the present time, but if the Town votes to give such authority to the Finance Committee or appoints a special committee, the present members of the Finance Committee will undertake the work, or will co-operate with any other committee.

The expenditures of the School Department have occupied much of our attention, not only because this Department takes more money raised by taxation than any other for its annual operating costs, but because more than two-thirds of the property belonging to the Town, and about two-thirds of the funded indebtedness is for school buildings. In studying this question we found a situation universal throughout the country. Those having direct charge of education are adverse to any reduction for reasons that seem to them sufficient, and we found that practically all parents having children now in school are determined to have every school activity retained. It is not surprising that they would wish their children to receive an education equal to other children who have previously attended our schools, and certainly no one can wish to penalize in any way those children who are being educated this year or next year unless it is absolutely necessary. It may be that our present system of education needs revision, but we feel that until the matter is taken in charge by the State Board of Education or some other authority which will make it universal, we should postpone any drastic curtailment in order that Needham School children will not suffer in comparison with children of other towns, or with those attending private schools. We are strongly of the opinion that our recommendations represent the lowest possible amount by which the schools can be operated with

the present requirements, and any further curtailment will result in the discontinuance of some of the present activities. The school budget has been brought below that of last year even though the increase in the number of pupils is over one hundred each year. Ample proof has been given that Needham schools are rated among the highest in the State.

Last year it was the opinion of the Finance Committee that the recommendation of the "Special Water Committee" made to the Town at its annual meeting should be adopted as we believed it was in the interests of economy. The Town voted otherwise. In the report of the Water Commissioners it will now be seen that a serious shortage was only averted last summer by the spending of nearly as much money for the temporary supply as this Special Committee recommended for permanent work. This also may be an instance where economy was perhaps unwise.

We recommend to the voters that no provision be made this year for unemployment. We think this is an expensive way of providing assistance and all cases of actual need resulting from unemployment should be handled through the Welfare Department. We are recommending that the sum of \$35,000 be appropriated for new sewer construction as about \$28,000 of this appropriation will be expended in providing work for those receiving aid from the Welfare Department. This new sewer construction will have to be provided in the near future and when conditions warrant it can be connected with the present system that is in use and the cost of such new construction can then be returned to the Town through assessment of betterments.

We think that all officials of the Town should be on a salary basis and we are recommending that a change be made in the method of payment for collection of taxes.

The present members of the Finance Committee are of the opinion that it would be to the advantage of the Committee and to the taxpayers that one or more public meetings should be held during the coming year at which time they can receive the views of organizations and individuals concerning the affairs of the Town.

An unusual amount of interest has been shown in the affairs of the Town during the past year and we sincerely hope this interest will continue even when questions of economy are not so vital.

The Finance Committee hereby wishes to express to all Town officials, employees and taxpayers with whom they had conferences and hearings, its thanks and appreciation for their assistance.

The following are our recommendations on the budget and articles in the Warrant:—

RECOMMENDATIONS ON ARTICLES IN THE WARRANT

Article 4. To see what action the Town will take relative to unexpended balances and deficiencies of 1932.

Recommended: That the unexpended balances of the Otis Street, Parkinson Street, Powers Street, Hemlock Street, Washington Avenue, Mount Vernon Avenue, Great Plain Avenue, and South Street Bridge constructions be appropriated to the Board of Public Welfare.

Article 5. To see what disposition the Town will make of the money received from dog licenses.

Recommended: That the money from Dog Licenses be appropriated for the Public Library.

Article 6. To see if the Town will vote to accept certain sums offered as a contribution from their salaries and wages by the officers and employees of the Town for the year 1933.

Recommended: That the Town vote to accept the contribution of 10% of the salaries and wages for the year 1933 offered by the officers and employees and appropriate same for the Welfare Department. This will amount to approximately \$35,000.00.

Article 7. To see what action the Town will take relative to the salaries of its Town officers.

Recommended: That the salaries of Town officers be the same as in 1932 and that the Tax Collector be placed on a yearly salary of \$2,600.00.

Article 8. To see what sums of money the Town will appropriate for the necessary Town charges and expenses.

Article 9. To see if the Town will appropriate the sum of \$35,000 to the Sewer Construction Account to provide work for men to be supplied by the Welfare Board.

Recommended: That the substance of this article be adopted. We recommend this appropriation only because it provides work for the Welfare Department. Assessments will not be levied until sewers are connected on petition of abutters.

Article 10. To see if the Town will appropriate the sum of \$5,000 for making house connections with the sewerage system.

Recommended: That the substance of this article be adopted. This does not affect the tax rate.

Article 11. To see if the Town will vote to transfer \$24,500 from the Sewer Assessment Reserve Fund to the Sewer Construction Account to pay notes and interest due in 1933 on construction bonds and for the purpose of extensions of the common sewers.

Recommended: That the substance of this article be adopted.

Article 12. To see in what manner the Town will have its taxes collected and fix the compensation therefor for the current year.

Recommended: That the taxes be collected as in 1932, except that the Tax Collector receive a salary and that all uncollected taxes of any warrant be included in the salary.

Article 13. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of revenue of the current financial year.

Recommended: That the substance of this article be adopted.

Article 14. To see if the Town will authorize the transfer of jurisdiction to the Sewer Commissioners of a portion of land, now being held in trust by said Town as a part of the assets of the Glover Memorial Hospital, containing 6,945 square feet of land bordering Rosemary Brook on West Street, together with the right to use adjoining Town property for purposes incidental for sewerage installations, or pass any vote or votes relative thereto.

Recommended: That the substance of this article be adopted.

Article 15. To see if the Town will vote to relocate a portion of Forest Street near the Wellesley Town Line in accordance with a plan on file in the office of the Town Clerk.

Recommended: That the substance of this article be adopted, if at no cost to the Town.

Article 16. To see if the Town will vote to relocate Bird Street from Broadmeadow Road to Greendale Avenue in accordance with a plan on file in the office of the Town Clerk.

Recommended: That the substance of this article be adopted, if at no cost to the Town.

Article 17. To see if the Town will authorize and direct its Selectmen to accept deeds on behalf of the Town and/or take about 14,695 square feet of land more or less, by purchase or eminent domain proceedings for a municipal purpose, to wit, for the purpose of relocating Bird Street from Broadmeadow Road to Greendale Avenue in accordance with a plan on file in the office of the Town Clerk and appropriate \$40.30 therefor, or pass any vote or votes relative thereto.

Recommended: That the substance of this article be adopted, if at no cost to the Town.

Article 18. To see if the Town will vote to accept Section 13 of Chapter 40 of the General Laws, known as the Municipal Buildings Insurance Fund Act.

Recommended: That this article be dismissed.

Article 19. To see if the Town will authorize the Finance Committee to make a study of salaries paid to Town Officers and Employees and to report to the next Annual Meeting with its recommendations, or pass any vote or votes relative thereto, on petition of the Needham Tax Payers' Association.

Recommended: That the substance of this article be adopted. The Finance Committee is willing to assume any duties regarding the finances of the Town that they are instructed to do.

Article 20. To see if the Town will increase the number of the members of the Board of Public Welfare from three to five, or pass any vote or votes relative thereto, on petition of the Needham Tax Payers' Association.

Recommended: That the substance of this article be adopted.

Article 21. To see if the Town will authorize the Moderator, pending an increase in the number of members of the Board of Public Welfare, to appoint two persons to serve *ex-officio* and in an advisory capacity with the Board of Public Welfare, or pass any vote or votes relative thereto, on petition of the Needham Tax Payers' Association.

Recommended: That the substance of this article be adopted.

Article 22. To see if the Town will vote: That it is the sense of the meeting, that any Town Employee, or the employee of any Town department, who shall persuade, or attempt to persuade, any person or persons to boycott or refrain from doing business with any citizen of Needham, or institution or corporation located in Needham, because of such citizen's, institution's, or corporation's efforts, or participation in an effort, to reduce Town taxes, should be dismissed from the employment of the Town, on petition of the Needham Tax Payers' Association.

Article 23. To see if the Town will vote: That it is the sense of the meeting, that no contract, or contracts, of employment, should be made with any Town employee, or the employee of any Town department, which do not contain a provision, or clause, to the effect that the rate of compensation payable under such contract may be adjusted in accordance with any general plan of percentage of reduction, made applicable to all employees of the same or similar class, on petition of the Needham Tax Payers' Association.

Article 24. To see if the Town will vote: That it is the sense of this meeting, that department heads, and boards, responsible for salaries in Town departments, shall not advance or increase the salary of any Town employee, until the next Annual Town Meeting, nor thereafter, until further action by vote of Town Meeting, on petition of the Needham Tax Payers' Association.

As these are only to obtain the sense of the meeting, they do not require a report by the Finance Committee.

Article 25. To see if the Town, for the purpose of providing suitable headquarters for Lieutenant Manson H. Carter Post, No. 2498, Veterans of Foreign Wars of the United States, will lease to said Post for a period of not exceeding five years, the building on Chestnut Street formerly used and occupied as a fire station, or pass any vote or votes relative thereto, on petition of John F. McDermott and others.

Inasmuch as this building is now being used in part by the Sewer Department, we cannot recommend this article until provision is made for other space for this department. At the present time the Sewer Department is saving over \$600.00 yearly rentals in these quarters.

Article 26. To see if the Town will appropriate the sum of \$200 for the purpose of heating and lighting the headquarters of Lieutenant Manson H. Carter Post, No. 2498, Veterans of Foreign Wars of the United States, said sum to be expended under the direction of said Post, or pass any vote or votes relative thereto, on petition of John F. McDermott and others.

The Finance Committee does not recommend the expenditures of any additional funds this year for any purpose.

Article 27. To see if the Town will vote to amend its zoning map by changing from a single residence district to a business district the area on the east side of Greendale Avenue bounded on the south by land of Laura I. Cassidy 300 feet, on the east by land of Laura I. Cassidy 350 feet, in a line parallel to Greendale Avenue, on the north by land of heirs of Margeannah Carter 300 feet and on the west by Greendale Avenue 350 feet, on petition of Laura I. Cassidy and others.

Article 28. To see if the Town will amend its zoning map by changing from a single residence district to a business district a lot of land containing approximately 8495 square feet, bounded northerly by land of George Benzie and Louisa Benzie, easterly by the Circumferential State Highway, and southerly by land of the Commonwealth of Massachusetts, forming the junction of Greendale Avenue and the Circumferential State Highway, on petition of George Benzie and others.

Article 29. To see if the Town will vote to amend its zoning map by changing from a single residence district to a business district the area on the easterly side of Warren Street bounded generally as follows: southerly by land of the N. Y., N. H. & H. R. R. 109 feet; westerly by Warren Street 74.74 feet; northerly by land now or formerly of Quigley 102.51 feet; and easterly by land of Bleakney 37.32 feet, and containing 5750 square feet, on petition of John F. Richard and others.

We believe that the recommendations of the Planning Board should be followed in these matters.

Article 30. To see what sum of money the Town will appropriate for the installation and maintenance of one street light on Eaton Road, on petition of H. Harris Eaton and others.

Article 31. To see what sum of money the Town will appropriate for the installation and maintenance of one street light on Daly Place, on petition of Mary E. Murphy and others.

As the Committee on Lighting has recommended the reduction of present lighting arrangement we do not believe that any additional lights should be added.

Article 32. To hear and act on the report of the committee appointed under Article 3 of the warrant of the Special Town Meeting of January 16, 1933, to study the Town By-Laws relating to Town Meetings and Town Finance and Administration.

The Finance Committee does not make recommendations on Special Committee reports.

Article 33. To see what action the Town will take relative to the readjustment of any or all of its Town officers' salaries, and Town employees' salaries, on petition of George H. Hassam and others.

Article 34. To see what action the Town will take relative to the consolidation, or abolishment of any of its Town officers or employees, on petition of George H. Hassam and others.

Article 35. To see what action the Town will take relative to the pay and hours of work for its day labor in all the departments, on petition of George H. Hassam and others.

Recommended: That these articles be dismissed as the subject is covered by Article 19.

Article 36. To see what action the Town will take relative to the appointment of a committee of five from the floor to make an investigation of the Welfare Department and report at the next Town meeting, on petition of George H. Hassam and others.

Recommended: That the article be dismissed as it is covered by Articles 20 and 21.

Article 37. To see what action the Town will take relative to Section 16 of Article 18 of the Town Building By-Laws with reference to relief valves and vacuum valves on domestic hot water boilers, or pass any vote or votes relative thereto, on recommendation of the Plumbing Inspectors.

Article 38. To see what action the Town will take relative to Section 10 of Article 9 of the Town Building By-Laws with reference to vent pipes for gas stoves and gas water heaters, or pass any vote or votes relative thereto, on recommendation of the Plumbing Inspectors.

Article 39. To see what action the Town will take relative to Section 6 of Article 1 of the Town Building By-Laws with reference to fee for any or all permits issued under said By-Laws.

Changes the building laws and permit fees. We believe that the Inspection Department should be made self-supporting.

Article 40. To see if the Town will vote to have the reports of its officers and the proceedings of this and subsequent Town Meetings printed, or pass any vote or votes relative thereto.

Recommended: That the substance of this article be adopted.

Article 41. To appropriate and raise by borrowing or otherwise such sums of money as may be necessary for all or any other purpose mentioned in the foregoing articles and especially to act upon all appropriations asked for or proposed by the Selectmen or any Town Officer or Committee.

Not knowing the purpose of the article, we cannot recommend.
